Simonowicz, 1996 **Explorers Guide Vermont Thirteenth Edition** Christina Tree, Rachel Carter, 2012-09-17 Surveys the parks campgrounds inns motels restaurants stores sports cultural activities special events and historic villages in Vermont **Reading the Mountains of Home** John Elder, 1998 Small farms once occupied the heights that John Elder calls home but now only a few cellar holes and tumbled stone walls remain among the dense stands of maple beech and hemlocks on these Vermont hills Reading the Mountains of Home is a journey into these verdant reaches where in the last century humans tried their hand and where bear and moose now find shelter As John Elder is our guide so Robert Frost is Elder's companion his great poem Directive seeing us through a landscape in which nature and literature loss and recovery are inextricably joined Over the course of a year Elder takes us on his hikes through the forested uplands between South Mountain and North Mountain reflecting on the forces of nature from the descent of the glaciers to the rush of the New Haven River that shaped a plateau for his village of Bristol and on the human will that denuded and farmed and abandoned the mountains so many years ago His forays wind through the flinty relics of nineteenth century homesteads and Abenaki settlements leading to meditations on both human failure and the possibility for deeper communion with the land and others An exploration of the body and soul of a place an interpretive map of its natural and literary life Reading the Mountains of Home strikes a moving balance between the pressures of civilization and the attraction of wilderness It is a beautiful work of nature writing in which human nature finds its place where the reader is invited to follow the last line of Frost's Directive to Drink and be whole again beyond confusion **The Adirondacks** Gary Randorf, 2002-07-29 One hundred full color photographs illustrate this history and current health of upstate New York's Adirondack Park the first private public partnership dedicated to the protection of a U S wilderness area Here is the first lesson about the Adirondacks captured in Gary Randorf's magnificent photos It is not only alpine granite in fact of the park's six million acres only about eighty five scattered on top of the tallest mountains are that gorgeous pseudo Arctic Aside from the touristed High Peaks the Adirondacks comprise millions upon millions of acres of Low Peaks of beavery draws and bearish woods of hills and hills and hills countless drainages and muddy ponds The second point about the Adirondacks a glory carefully revealed in the words and pictures of this book is that it represents a second chance wilderness and as such a hope that the damage caused by human beings is not irreversible It is metaphor as much as place from the foreword by Bill McKibben In The Adirondacks

Wild Island of Hope Gary A Randorf offers 100 photographs to illustrate this unique comprehensive history and natural history of the Adirondack Park the first private public partnership in the United States dedicated to the protection of a wilderness area Situated in northeast New York this regional park of six million acres represents a unique blend of public wildlands intermixed with commercial forests farms mines private parks prisons scattered homes dozens of villages and a year round population of 130 000 The ongoing attempts over the last century to make the Adirondacks a park have made this region a striving ground for living with the land rather than outside or above it Much of the strife is over finding a right relationship to the land treating it not as a commodity to be exploited but as a community to which all living things belong and upon which all depend Today the Adirondacks regional park with its six million acres represents a second chance wilderness as Bill McKibben writes in his foreword to this book The concerns of this park are the same concerns that apply to all of America s parks recreational areas and wildernesses with the addition of how to maintain the fragile peace between human and natural communities How that second chance can be realized is the focus of Gary Randorf s text and stunning color photographs
