Culture in Law and Development Lan Cao, 2016-05-02 Culture in Law and Development presents a provocative new solution to the seemingly intractable problem of combining international norms with local cultural traditions by changing culture through law and development In this book Lan Cao demonstrates how the gradual expansion of customary international law CIL provides a model for changing culture in ways that protect and advance local populations The book adopts a holistic view of development and argues that cultural norms that impede the human capabilities of the poor women and other marginal groups should be changed The book reveals how a more conscious coordinated effort on such change can succeed while non violative local traditions are otherwise honored and preserved Cao proposes that cultural change does not have to constitute cultural disrespect and that local societies only benefit by a careful combination of externally wrought change and internally fostered tradition
