Jason Ditton, Stephen Farrall

Radical Criminology International Library Of Criminology Criminal Justice And Penology:

Radical Criminology Michael J. Lynch, 1997 This text contains a variety of works that represent the radical tradition within criminology and criminal justice The essays provide some background into radical assumptions feature contemporary advances include empirical examinations and illustrate substantive issues *Radical and Marxist Theories of Crime* Paul B. Stretesky, 2017-03-02 The essays selected for this volume show how radical and Marxist criminology has established itself as an influential critique since it emerged in the late 1960s Unlike orthodox criminology which emphasizes individual level explanations of criminal behavior radical and Marxist criminology emphasizes power inequality and structures especially those related to class as key factors in crime law and justice This collection of essays draws attention to the way in which structural forces shape and influence both individual and institutional for example governmental behavior highlights neglected crime corporate governmental state corporate and environmental which causes more extensive damage than the street crimes examined by orthodox criminology and discusses the ways in which law and criminal justice processes reinforce power structures and contribute to class control **Critique and Radical Discourses on Crime** George

Pavlich, 2019-07-12 This title was first published in 2000 Critique and Radical Discourses on Crime develops a unique line of thought in contemporary criminology re examining an under researched dimension of radical discourse In particular it focuses attention on the distinguishing feature of radical discourses their allegiance to various visions of critique The book reassesses the genres of critique evident in previous forms of radical criminology formulates a different genre of critique appropriate to the uncertainties of postmodern conditions and shows how these genres can be articulated to differently conceived radical discourses on crime *Cyberspace Crime* D.S Wall, 2017-11-30 This book was published in 2003 This book is a collection of key texts that have contributed towards or have reflected the various debates that have taken place over crime and the internet during that past decade The texts are organised into three parts The first contains a number of viewpoints and perspectives that facilitate our broader understanding of cyberspace crime cybercrimes The second part addresses each of the major types of cybercrime trespass hacking cracking thefts deceptions obscenities pornography violence and illustrate their associated problems of definition and resolution The third and final part contains a selection of texts that each deal with the impact of cyberspace crime upon specific criminal justice processes the police and the trial process

The Fear of Crime Jason Ditton, Stephen Farrall, 2017-07-05 Studies of the fear of crime have constituted what is undeniably the fastest growing research area within criminology in the last decade and this shows no sign of diminishing The editors have a distinguished record of innovative research in the field being responsible for a number of seminal empirical and theoretical articles In this volume they have collected together and for the first time all the most significant contributions to the field The collection includes an introductory essay by the editors and articles reflecting an overview of the field the causes of vulnerability the sources of information on victimisation the methods used to survey fear the

theoretical models employed to explain it and the nature of policies designed to reduce fear *Women Police* Mangai Natarajan,2017-11-22 The law of equal representation should enable men and women in policing to be equally valued and rewarded for the work they perform but it has been repeatedly shown that due to the great deal of opposition to the entry of women into policing women worldwide have been unable to fully integrate into this largely male profession Gender stereotypes have impeded the progress of women in policing and have played an unfortunate role in discriminating and devaluing their work However women make a valuable contribution to policing and the recognition and nurturing of their skills presents an important challenge to police management The introduction to the volume reviews the status of women officers worldwide and the integration progress made to date The important twenty four articles chosen for inclusion in this book document the need for women officers and describe the many barriers they face in being fully assimilated into policing This volume serves as a wake up call for police management to find ways to attract and retain women in the police force

Computer Crime Indira Carr,2017-07-05 Alongside its positive impact of providing a global reach the Internet is prone to a variety of abuses In the 1990s it was unauthorised access of computers and impairment of the operation of computers through the introduction of viruses and worms that took centre stage Since then the potential of the Internet for fraudulent activities has been realised by the criminal fraternity and in recent years we have seen for instance the rise of identity theft and the widespread distribution of offensive and illegal materials The collection of essays in this volume while being highly selective provides a snapshot of the parameters of computer crime the legal response and discussions surrounding ways to improve the security of cyberspace **Crime and Deviance in Cyberspace** David S. Wall,2017-07-05 This volume presents the reader with an interesting and at times provocative selection of contemporary thinking about cybercrimes and their regulation The contributions cover the years 2002 2007 during which period internet service delivery speeds increased a thousand fold from 56kb to 56mb per second When combined with advances in networked technology these faster internet speeds not only made new digital environments more easily accessible but they also helped give birth to a completely new generation of purely internet related cybercrimes ranging from spamming phishing and other automated frauds to automated crimes against the integrity of the systems and their content In order to understand these developments the volume introduces new cybercrime viewpoints and issues but also a critical edge supported by some of the new research that is beginning to challenge and surpass the hitherto journalistically driven news stories that were once the sole source of information about cybercrimes **Domestic Violence** Mangai Natarajan,2017-05-15 Domestic Violence is not just a public health and criminal justice problem it is also an issue of universal human rights that needs immediate and vigorous attention How we measure the prevalence of Domestic Violence what we identify as the risk factors which theories seem to provide most help in understanding and responding to Domestic Violence which preventive and treatment programs seem most effective and the respective roles of the health and criminal justice systems are all questions of vital importance in society s

response to the problem **Insurgent Terrorism** Gerald Cromer, 2017-11-30 Terrorists engage in propaganda and rhetoric even though they prefer the power of deed over word They use a wide variety of mechanisms of moral disengagement to convince themselves of the rightness of their actions a necessary prerequisite for taking up arms The articles collected together in this excellent volume focus on the rhetoric and propaganda used by insurgent terrorists to justify their resort to violence The volume includes a thoughtful introduction which summarizes the main findings of the literature drawing attention to the many different kinds of terrorist propaganda and the underlying similarity between them
