## Radical Visions And American Dreams:

*Radical Visions and American Dreams* Richard H. Pells, 1973 The Great Depression of the 1930s was more than an economic catastrophe to many American writers and artists. Attracted to Marxist ideals they interpreted the crisis as a symptom of a deeper spiritual malaise that reflected the dehumanizing effects of capitalism and they advocated more sweeping social changes than those enacted under the New Deal. In *Radical Visions and American Dreams* Richard Pells discusses the work of Lewis Mumford, John Dewey, Reinhold Niebuhr, Edmund Wilson, and Orson Welles among others. He analyzes developments in liberal reform, radical social criticism, literature, the theater, and mass culture, and especially the impact of Hollywood on Depression-era America. By placing cultural developments against the background of the New Deal, the influence of the American Communist Party, and the coming of World War II, Pells explains how these artists and intellectuals wanted to transform American society yet why they wound up defending the American Dream. A new preface enhances this classic work of American cultural history.

*The Great Depression* Robert S. McElvaine, 1993-12-06 One of the classic studies of the Great Depression featuring a new introduction by the author with insights into the economic crises of 1929 and today. In the twenty-five years since its publication, critics and scholars have praised historian Robert McElvaine's sweeping and authoritative history of the Great Depression as one of the best and most readable studies of the era. Combining clear-eyed insight into the machinations of politicians and economists who struggled to revive the battered economy, personal stories from the average people who were hardest hit by an economic crisis beyond their control, and an evocative depiction of the popular culture of the decade, McElvaine paints an epic picture of an America brought to its knees but also brought together by people's widely shared plight. In a new introduction, McElvaine draws striking parallels between the roots of the Great Depression and the economic meltdown that followed in the wake of the credit crisis of 2008. He also examines the resurgence of anti-regulation, free-market ideology beginning in the Reagan era and argues that some economists and politicians revised history and ignored the lessons of the Depression era.

*Dancing in the Dark: A Cultural History of the Great Depression* Morris Dickstein, 2010-09-06 From Agee to A. J. Ayer, Steinbeck to Ellington, the creative energies of the Depression against a backdrop of poverty and economic disaster. In this timely and long-awaited cultural history of the 1930s, Morris Dickstein, whom Norman Mailer called one of our best and most distinguished critics of American literature, explores the anxiety and hope, the despair and surprising optimism of distressed Americans at a time of dire economic dislocation. Bringing together a staggering range of materials from epic Dust Bowl migrations and sharecropper photographs to zany screwball comedies, wildly popular swing bands, and streamlined Deco designs, this eloquent work highlights the pivotal role of culture and government intervention in hard times. Exploding the myth that Depression culture was merely escapist, it concentrates instead on the dynamic energy and insight the arts could provide and the enormous lift they gave to the nation's morale. *Dancing in the Dark* shows how our worst economic crisis, as it eroded American

individualism and punctured the American dream produced some of the greatest writing photography and mass entertainment ever seen in this country      **For God and Globe** Michael G. Thompson, 2016-02-19 For God and Globe recovers the history of an important yet largely forgotten intellectual movement in interwar America Michael G Thompson explores the way radical left and ecumenical Protestant internationalists articulated new understandings of the ethics of international relations between the 1920s and the 1940s Missionary leaders such as Sherwood Eddy and journalists such as Kirby Page as well as realist theologians including Reinhold Niebuhr developed new kinds of religious enterprises devoted to producing knowledge on international relations for public consumption For God and Globe centers on the excavation of two such efforts the leading left wing Protestant interwar periodical The World Tomorrow and the landmark Oxford 1937 ecumenical world conference Thompson charts the simultaneous peak and decline of the movement in John Foster Dulles's ambitious efforts to link Christian internationalism to the cause of international organization after World War II Concerned with far more than foreign policy Christian internationalists developed critiques of racism imperialism and nationalism in world affairs They rejected exceptionalist frameworks and eschewed the dominant Christian nation imaginary as a lens through which to view U S foreign relations In the intellectual history of religion and American foreign relations Protestantism most commonly appears as an ideological ancillary to expansionism and nationalism For God and Globe challenges this account by recovering a movement that held Christian universalism to be a check against nationalism rather than a boon to it      America Between the Wars, 1919-1941 David Welky, 2012-01-17 This collection situates over seventy essential primary documents in their historical context to illustrate the American experience during the interwar era 1919-1941 Introduces a broad range of cultural and historical topics from race and the role of women to trends in literature and the Great Depression Includes a range of photographs and illustrations End of chapter questions encourage critical thinking and analysis while a bibliography prepares students for further research      Eyes on Labor Carol Quirke, 2012-07-16 In the twentieth century's first decades U S workers waged an epic struggle to achieve security through unions simultaneously Americans came to interpret current events through newspaper photographs Eyes on Labor brings these two revolutions together revealing how news photography brought workers into the nation's mainstream Carol Quirke focuses on images ignored by scholars but seen by millions of Americans in the news of the day Part visual analysis part labor and cultural history Quirke analyzes over one hundred photographs stereographs of the Uprising of 1877 tabloid photos of the 1919 strike wave photo essays in the nationally popular LIFE Magazine and even photos taken by a union camera club Quirke anchors her interpretations in a lively historical narrative that takes readers from Washington D C hearings to small towns in Indiana and Pennsylvania to local union halls and to New York City boardrooms Illuminating why unions employers and news publishers vied to represent workers with the camera's eye Eyes on Labor explores how Americans understood the complex and contradictory portrait of labor they produced      A Richard Wright Bibliography Kenneth Kinnamon, Joseph

Benson, Michel Fabre, Craig Werner, 1988-01-13 Any future biographical work on Richard Wright will find this bibliography a necessity academic or public libraries supporting a program of black culture will find it invaluable and it belongs in any library supporting American literature studies Richard Wright has truly been well served Choice The most comprehensive bibliography ever compiled for an American writer this book contains 13 117 annotated items pertaining to Richard Wright It includes almost all published mentions of the author or his work in every language in which those mentions appear Sources listed include books articles reviews notes news items publishers catalogs promotional materials book jackets dissertations and theses encyclopedias biographical dictionaries handbooks and study guides library reports best seller charts the Index Translationum playbills and advertisements editorials radio transcripts and published letters and interviews The bibliography is arranged chronologically by year Each entry includes bibliographical information an annotation by the authors and information about all reprintings partial or full The index is unusually complete and contains the titles of Wright's works real and fictional characters in the works entries relating to significant places and events in the author's life important literary terminology and much additional information      An All-consuming Century Gary S. Cross, 2000 The victory of consumerism in America was not a foregone conclusion The United States has traditionally been home to the most aggressive and thoughtful critics of consumption such as Puritanism and Prohibition This work offers a history of how market forces came to dominate American life      *The "new Woman" Revised* Ellen Wiley Todd, 1993-01-01 In the years between the world wars Manhattan's Fourteenth Street Union Square district became a center for commercial cultural and political activities and hence a sensitive barometer of the dramatic social changes of the period It was here that four urban realist painters Kenneth Hayes Miller Reginald Marsh Raphael Soyer and Isabel Bishop placed their images of modern new women Bargain stores cheap movie theaters pinball arcades and radical political organizations were the backdrop for the women shoppers office and store workers and consumers of mass culture portrayed by these artists Ellen Wiley Todd deftly interprets the painters complex images as they were refracted through the gender ideology of the period This is a work of skillful interdisciplinary scholarship combining recent insights from feminist art history gender studies and social and cultural theory Drawing on a range of visual and verbal representations as well as biographical and critical texts Todd balances the historical context surrounding the painters with nuanced analyses of how each artist's image of womanhood contributed to the continual redefining of the new woman's relationships to men family work feminism and sexuality      *No Depression in Heaven* Alison Collis Greene, 2016 A study of the inability of the churches to deal with the crisis of the Great Depression and the shift from church based aid to a federal welfare state
