Restoring Women's History Through Historic Preservation Gail Lee Dubrow, Jennifer B. The Tragedy of Heterosexuality Jane Ward, 2020-09-01 Winner 2021 PROSE Award in the Cultural Anthropology Sociology Category Finalist 2021 Lambda Literary Award in LGBTQ Studies A troubling account of heterosexual desire in the era of MeToo Heterosexuality is in crisis Reports of sexual harassment misconduct and rape saturate the news in the era of MeToo Straight men and women spend thousands of dollars every day on relationship coaches seduction boot camps and couple s therapy in a search for happiness In *The Tragedy of Heterosexuality* Jane Ward smartly explores what exactly is wrong with heterosexuality in the twenty first century and what straight people can do to fix it for good She shows how straight women and to a lesser extent straight men have tried to mend a fraught patriarchal system in which intimacy sexual fulfillment and mutual respect are expected to coexist alongside enduring forms of inequality alienation and violence in straight relationships Ward also takes an intriguing look at the multi billion dollar self help industry which markets goods and services to help heterosexual couples without addressing the root of their problems Ultimately she encourages straight men and women to take a page out of queer culture reminding them about the human capacity to desire fuck and show respect at the same time

Capitalisms and Gay Identities Stephen Valocchi, 2019-09-04 In this important text Stephen Valocchi brings capitalism back into the study of the gay and lesbian movement He argues that to understand the collective identity structure strategies and goals of the movement we need to understand the role that capitalism and the state have

played While capitalism and the state have figured centrally in earlier analyses of social movements these important institutions and their social processes are no longer central concerns of the theory and research of social movements in the United States Capitalisms and Gay Identities examines how the class based inequalities and changing class structures of capitalism interact with and indeed help shape the dynamics of other types of inequalities such as gender sexuality race and ethnicity These inequalities and structures in turn shape the specific grievances of and affect the nature of stigma levied against individuals with sexual and gender nonconformity Valocchi shows that capitalism is a dynamic system and as it changes the nature of the movement and the collective identity created by the movement also changes A vital text for undergraduate and postgraduate students of sociology social movements LGBTQ politics and American studies Capitalisms and Gay Identities challenges our understanding of many aspects of the gay and lesbian movement when viewed through the lens of capitalism particularly its ability to advance the cause of sexual freedom and gender justice *New Religions and Spiritualities* Stephen Hunt, 2017-03-02 Since the 1960s a fresh wave of new religions and what has come to be termed spiritualities have been evident on a global scale This volume in The Library of Essays on Sexuality and Religion focuses on these new religions and their often contentious attitudes towards human sexuality Part 1 through previously published articles provides instances of affirming orientations of the new religions towards sexuality This entails scrutinising examples of innovative religion from a historical perspective as well as those of a more contemporary nature Part 2 examines with pertinent illustrations the controversial character of new religions in their cultist forms and matters of sexual control and abuse Part 3 considers sexuality as articulated through paganism the occult and esotericism in the postmodern setting Part 4 examines both hetero and non hetero expressions of sexuality through the so called New Spiritualities Quasi religions and the more hidden forms of religiosity **Global Perspectives on Nationalism** Debajyoti Biswas, Panos Eliopoulos, John C.
