Railway King:

The Railway King Robert Beaumont, 2016-11-10 George Hudson the eponymous Railway King started his career with a stroke of luck inheriting 27 000 a fortune in 1827 from a distant relative He invested successfully in the North Midland Railway then formed his own Midland Railway raising 5 million and bribing MPs along the way But from his glory in 1845 he fell into disgrace admitting corruption and selling land he did not own He was eventually imprisoned in York Castle and died a broken man in 1871 His story provides an excellent insight into nineteenth century politics and industrial progress full of moral dilemmas and a testimony to the growth of the railways in Britain a timely subject **The Railway King of Canada** R. B. Fleming, 2007-10-01 During the first two decades of this century Sir William Mackenzie was one of Canada's best known entrepreneurs He Spearheading some of the largest and most technologically advanced projects undertaken in Canada he built a business empire that stretched from Montreal to British Columbia and to Rio de Janeiro and Sao Paulo in Brazil It included gas electric telephone and transit utilities railroads hotels and steamships as well as substantial coal mining whaling and timber interests But when he died in 1923 his estate was virtually bankrupt as a result of the dramatic collapse of his Canadian Northern Railway during the First World War In a business biography intended as much for general readers as for a scholarly audience Fleming offers a revisionist perspective on Mackenzie He dispels the simplistic approach of those historians and journalists who have depicted Mackenzie and his partner Sir Donald Mann as melodramatic crooks who could have stepped out of the pages of Huckleberry Finn *George Hudson: The Railway King* Matthew Wells, 2024-09-30 George Hudson was the greatest British railway entrepreneur of the 19th century In 1848 he controlled over 1 000 miles of railway and when it came to railway promotion it seemed he could do no wrong However in early 1849 it came to light that some of his business methods had been less than ethical and he was forced to relinquish the chairmanship of each of his companies His fall from grace was spectacular and his detractors of whom there were many were quick to denounce him as a fraudster a charlatan and a crook Even today when the name George Hudson is mentioned these same insults are often levelled at him This new biography takes a fresh look at Hudson's extraordinary life from his humble beginnings as a farmer's boy to becoming Lord Mayor of York before catching the railway bug He was MP for Sunderland between 1845 and 1859 After his fall from grace Hudson endured a 20 year court battle with the York and North Midland Railway subsequently the North Eastern Railway for outstanding debts Hudson made many mistakes in creating his railway empire but did he deserve all the vitriol that still accompanies his reputation In seeking to answer this question Matthew Wells looks at the evidence including what was said about Hudson during his lifetime and what Hudson himself had to say about the actions he took *Victoria's Railway King* Geoff Scargill, 2021-05-12 The accomplishments and initiatives both social and economic of Edward Watkin are almost too many to relate Though generally known for his large scale railway projects becoming chairman of nine different British railway companies as well as developing railways in Canada the USA Greece India and the Belgian Congo he was also

responsible for a stream of remarkable projects in the nineteenth century which helped shape people's lives inside and outside Britain. As well as holding senior positions with the London and North Western Railway, the Worcester and Hereford Railway and the Manchester Sheffield Lincolnshire Railway, Watkin became president of the Grand Trunk Railway of Canada. He was also director of the New York Lake Erie and Western Railways as well as the Athens Piraeus Railway. Watkin was also the driving force in the creation of the Manchester Sheffield and Lincolnshire Railway's London Extension, the Great Central Main Line down to Marylebone in London. This though was only one part of his great ambition to have a high speed rail link from Manchester to Paris and ultimately to India. This of course involved the construction of a Channel tunnel. Work on this began on both sides of the Channel in 1880 but had to be abandoned due to the fear of invasion from the Continent. He also purchased an area of Wembley Park serviced by an extension of his Metropolitan Railway. He developed the park into a pleasure and events destination for urban Londoners which later became the site of Wembley Stadium. It was also the site of another of Watkin's enterprises, the Great Tower in London which was designed to be higher than the Eiffel Tower but was never completed. Little though is known about Watkin's personal life which is explored here through the surviving diaries he kept. The author who is the chair of The Watkin Society which aims to promote Watkin's life and achievements has delved into the mind of one of the nineteenth century's outstanding individuals. *The Railway Service ...* W.
