

The background of the book cover is a photograph of a lush, green valley. A long passenger train with blue and white cars is traveling along a track that curves through the middle of the valley. In the distance, there are blue, hazy mountains under a clear sky. The overall scene is peaceful and scenic.

Railways Atlas Of The World:

Railways Atlas of the World John E. Mahoney, 1982 This is a set of equal area free hand sketch maps derived from a globe of the earth Each map covers about 12 hundred miles horizontally and 9 hundred miles vertically or an area of approximately 1 million square miles The sketches are purposely simple and show a minimum of non railroad detail in order to allow for notations corrections and additions Place names are largely omitted to retain clarity This series depicts a strong and expanding railway system It also tends to put the lines in scale and depict them as systems something which is never done in general atlases
