The Invention of God in Indigenous Societies James Cox, 2014-09-19 Indigenous societies around the world have been historically disparaged by European explorers colonial officials and Christian missionaries Nowhere was this more evident than in early descriptions of indigenous religions as savage primitive superstitious and fetishistic Liberal intellectuals both indigenous and colonial reacted to this by claiming that before indigenous peoples ever encountered Europeans they all believed in a Supreme Being The Invention of God in Indigenous Societies argues that by alleging that God can be located at the core of pre Christian cultures this claim effectively invents a tradition which only makes sense theologically if God has never left himself without a witness Examining a range of indigenous religions from North America Africa and Australasia the Shona of Zimbabwe the Rainbow Spirit Theology in Australia the Yupiit of Alaska and the M ori of New Zealand the book argues that the interests of indigenous societies are best served by carefully describing their religious beliefs and practices using historical and phenomenological methods just as would be done in the study of any world religion

Australian Wetland Cultures John Charles Ryan, Li Chen, 2019-10-31 Among the most productive ecosystems on earth wetlands are also some of the most vulnerable Australian Wetland Cultures argues for the cultural value of wetlands Through a focus on swamps and their conservation the volume makes a unique contribution to the growing interdisciplinary field of the environmental humanities The authors investigate the crucial role of swamps in Australian society through the idea of wetland cultures The broad historical and cultural range of the book spans pre settlement indigenous Australian cultures nineteenth century European colonization and contemporary Australian engagements with wetland habitats The contributors situate the Australian emphasis in international cultural and ecological contexts Case studies from Perth Western Australia provide practical examples of the conservation of wetlands as sites of interlinked natural and cultural heritage The volume will appeal to readers with interests in anthropology Australian studies cultural studies ecological science environmental studies and heritage protection

Environmental Humanities and Theologies Rod Giblett, 2018-06-13 Many ways of thinking about and living with the environment have their roots in the Bible and the Christian cultural tradition Environmental Humanities and Theologies shows that some of these ways are problematic It also provides alternative ways that value both materiality and spirituality Beginning with an environmentally friendly reading of the biblical story of creation Environmental Humanities and Theologies goes on to discuss in succeeding chapters the environmental theology of wetlands dragons and watery monsters including crocodiles and alligators in the Bible and literature It then gives a critical reading of the environmental theology of the biblical book of Psalms Theological concepts are found in the works of English writers of detective and devotional stories and novels American nature writers and European Jewish writers as succeeding chapters show Environmental Humanities and Theologies concludes with an appreciation for Australian Aboriginal spirituality in the swamp serpent It argues for the sacrality of marsh monsters and swamp serpents as figures of reverence and respect for living bio and psycho symbiotic livelihoods in bioregions of the living earth in the Symbiocene This is the hoped for age superseding the Anthropocene Environmental Humanities and Theologies is aimed at those who have little or no knowledge of how theology underlies much thinking and writing about the environment and who are looking for ways of thinking about being and living with the earth that respect and value both spirituality and materiality It is a new text nurturing sacrality for the Symbiocene

Earth Story in Wisdom Traditions Norman C. Habel, Shirley Wurst, 2001-01-01 In this volume scholars from around the world read the story of the Earth in major Wisdom Traditions using the ecojustice principles outlined in Volume 1 Readings from the Perspective of Earth These readings uncover a range of fresh perspectives about Earth in seeking to discover where the voices of Earth are suppressed or heard in the Wisdom texts Some texts reveal an ecokinship between Earth and Wisdom Texts from Job challenge a cosmic model that gives priority to heaven over Earth Still others challenge the mandate to dominate in Genesis 1:28 In many texts Wisdom provides a vehicle for a new kinship with Earth Contributors include Jenny Wightman Hendrik Viviers Carole Fontaine Izak Spangenberg Alice Sinnott Willie van Heerden Katherine Dell Dale Patrick Marie Turner and Laura Hobgood Oster Hebrew Bible / Old Testament. III: From Modernism to Post-Modernism Magne

Sæbø, Jean Louis Ska, Peter Machinist, 2014-12-10 The long and complex history of reception and interpretation of the Hebrew Bible Old Testament through the ages described in the HBOT Project focuses in this concluding volume III Part 2 on the multifarious research and the different methods used in the last century Even this volume is written by Christian and Jewish scholars and takes its wider cultural and philosophical context into consideration The perspective is worldwide and ecumenical Its references to modern biblical scholarship on which it is based are extensive and updated The indexes names topics references to biblical sources and a broad body of literature beyond are the key to the wealth of information provided Contributors are J Barton H L Bosman A F Campbell SJ D M Carr D J A Clines W Dietrich St E Fassberg D F Ilesdal A C Hagedorn K M Heim J H genhaven B Janowski D A Knight C K rting A Laato P Machinist M A O'Brien M Oeming D Olson E Otto M S b J Schaper S Sekine J L Ska SJ M A Sweeney and J de Waard *Earth Story in Genesis* Norman C. Habel, Shirley Wurst, 2000-08-01 A series of articles by scholars from around the world reading the story of Earth in Genesis in the light of the ecojustice principles enunciated in Volume One Readings from the Perspective of Earth These readings uncover how Earth may be valued or de valued given a voice or denied a voice dominated or served depending on the orientation of the text In Genesis 1 for example the intrinsic worth of Earth is highlighted in the revealing of Earth's presence but negated when humans are given the right to subdue it In Genesis 9 the text begins with the Earth community terrified by and alienated from humans but ends with all the Earth Community and Earth itself bound together equally in a covenant

Readings from the Perspective of Earth Norman C. Habel, 2000-08-01 This volume introduces the hermeneutical approach and ecojustice principles developed by the Earth Bible project team Following this approach biblical scholars illustrate how a reading of the biblical text from the perspective of Earth yields fresh insights Though the text may seem anthropocentric these studies are able to retrieve evidence of the living voice and intrinsic value of Earth It is an approach that can be harmonized with other recognized critical approaches to the Bible from historical criticism to ecofeminist criticism The texts chosen are from many parts of the Bible Psalms Prophets Gospels Romans Revelation and the intertestamental literature Tobit and Wisdom of Solomon **The Earth Story in the New Testament** Vicky

Balabanski, Norman C. Habel, 2002-10-01 The Earth Bible is an international project including volumes on ecojustice readings of major sections of the Bible The basic aims of the Earth Bible project are to develop ecojustice principles appropriate to an Earth hermeneutic for interpreting the Bible and for promoting justice and healing for Earth to publish these interpretations as contributions to the current debate on ecology ecoethics and ecotheology to provide a responsible forum within which the suppressed voice of Earth may be heard and impulses for healing Earth may be generated The project explores text and tradition from the perspective of Earth employing a set of ecojustice principles developed in consultation with ecologists suspecting that the text and or its interpreters may be anthropocentric and not geocentric but searching to retrieve alternative traditions that hear the voice of Earth and value Earth as more than a human instrument The lead article in

Volume V is a reflection in responses to the ecojustice principles employed in the hermeneutic of the project. Several articles offer insights into New Testament texts that seem to devalue Earth in favour of heaven. The final article by Barbara Rossing challenges the popular apocalyptic notion that in the new age Earth will be terminated. A feature of this volume is a dialogue between Norman Habel who argues that John One seems to devalue Earth and two respondents Elaine Wainwright and Vicky Balabanski who is coeditor of this volume with Norman Habel 1
