Higher Education for Women in Postwar America, 1945-1965 Linda Eisenmann, 2006-01-19 Outstanding Academic Title for 2007 Choice Magazine This history explores the nature of postwar advocacy for women s higher education acknowledging its unique relationship to the expectations of the era and recognizing its particular type of adaptive activism Linda Eisenmann illuminates the impact of this advocacy in the postwar era identifying a link between women s activism during World War II and the women s movement of the late 1960s Though the postwar period has been portrayed as an era of domestic retreat for women Eisenmann finds otherwise as she explores areas of institution building and gender awareness In an era uncomfortable with feminism this generation advocated individual decision making rather than collective action by professional women generally conceding their complicated responsibilities as wives and mothers By redefining our understanding of activism and assessing women s efforts within the context of their milieu this innovative work reclaims an era often denigrated for its lack of attention to women

The House the Rockefellers Built Robert F. and indefatigable Quinton garnered support for the WNIA's work by creating strong working relationships with leaders of the main reform groups successive commissioners of Indian affairs secretaries of the interior and prominent congressmen The WNIA's powerful network of friends formed a hybrid organization religious in its missionary society origins but also political using its powers to petition and actively address public opinion Mathes follows the organization as it evolved from its initial focus on evangelizing Indian women and promoting Victorian society's ideals of true womanhood through its return to its missionary roots establishing over sixty missionary stations supporting physicians and teachers and building houses chapels schools and hospitals With reference to Quinton's voluminous writings including her letters speeches and newspaper articles as well as to WNIA literature Mathes draws a complex picture of an organization that at times ignored traditional Indian practices and denied individual agency even as it provided dispossessed and impoverished people with health care and adequate housing And at the center of this picture we find Quinton a woman and reformer of her time

International Women's Year Jocelyn Olcott, 2017-06-01 Amid the geopolitical and social turmoil of the 1970s the United Nations declared 1975 as International Women's Year The capstone event a two week conference in Mexico City was dubbed by organizers and journalists as the greatest consciousness raising event in history The event drew an all star cast of characters including Soviet cosmonaut Valentina Tereshkova Iranian Princess Ashraf Pahlavi and US feminist Betty Friedan as well as a motley array of policymakers activists and journalists International Women's Year the first book to examine this critical moment in feminist history starts by exploring how organizers juggled geopolitical rivalries and material constraints amid global political and economic instability The story then dives into the action in Mexico City including conflicts over issues ranging from abortion to Zionism The United Nations provided indispensable infrastructure and support for this encounter even as it came under fire for its own discriminatory practices While participants expressed dismay at levels of discord and conflict Jocelyn Olcott explores how these combative unanticipated encounters generated the most enduring legacies including women's networks across the global south greater attention to the intersectionalities of marginalization and the arrival of women's micro credit on the development scene This watershed moment in transnational feminism colorfully narrated in *International Women's Year* launched a new generation of activist networks that spanned continents ideologies and generations

Private Wealth and Public Life Judith Sealander, 1997-04-21 An analysis of the role played by private philanthropic foundations in shaping public policy during the early years of this century focusing on foundation sponsored attempts to influence policy in the areas of education social welfare and public health Winner of the Outstanding Book Award from the Ohio Academy of History In *Private Wealth and Public Life* historian Judith Sealander analyzes the role played by private philanthropic foundations in shaping public policy during the early years of this century Focusing on foundation sponsored attempts to influence policy in the areas of education social welfare and public health she addresses significant misunderstandings about the place of philanthropic foundations in American life Between 1903 and 1932 fewer than a dozen

philanthropic organizations controlled most of the hundreds of millions of dollars given to various causes. Among these, Sealander finds seven foundations attempted to influence public social policy in significant ways; four were Rockefeller philanthropies, joined later by the Russell Sage, Rosenwald, and Commonwealth Fund foundations. Challenging the extreme views of foundations either as benevolent forces for social change or powerful threats to democracy, Sealander offers a more subtle understanding of foundations as important players in a complex political environment. The huge financial resources of some foundations bought access, she argues, but never complete control. Occasionally a foundation's agenda became public policy, often it did not. Whatever the results, the foundations and their efforts spurred the emergence of an American state with a significantly expanded social policy-making role. Drawing on a wealth of archival materials, much of it unavailable or overlooked until now, Sealander examines issues that remain central to American political life. Her topics include vocational education, policy, parent education, juvenile delinquency, mothers' pensions, and public aid to impoverished children, anti-prostitution efforts, sex research, and publicly funded recreation. Foundation philanthropy's legacy for domestic social policy, she writes, raises a point that should be emphasized repeatedly by students of the policy process: Rarely is just one entity a policy's sole author; almost always, policies in place produced unintended consequences.
