Copyright Office,1976 **The British Library General Catalogue of Printed Books to 1975** British Library,1985 **Androids in the Enlightenment** Adelheid Voskuhl,2013-05-31 The eighteenth century saw the creation of a number of remarkable mechanical androids at least ten prominent automata were built between 1735 and 1810 by clockmakers court mechanics and other artisans from France Switzerland Austria and the German lands Designed to perform sophisticated activities such as writing drawing or music making these Enlightenment automata have attracted continuous critical attention from the time they were made to the present often as harbingers of the modern industrial age an era during

which human bodies and souls supposedly became mechanized In *Androids in the Enlightenment* Adelheid Voskuhl investigates two such automata both depicting piano playing women These automata not only play music but also move their heads eyes and torsos to mimic a sentimental body technique of the eighteenth century musicians were expected to generate sentiments in themselves while playing then communicate them to the audience through bodily motions Voskuhl argues contrary to much of the subsequent scholarly conversation that these automata were unique masterpieces that illustrated the sentimental culture of a civil society rather than expressions of anxiety about the mechanization of humans by industrial technology She demonstrates that only in a later age of industrial factory production did mechanical androids instill the fear that modern selves and societies had become indistinguishable from machines *Russian Furniture* Antoine

Chenevière, 2001 Soon after her arrival in Russia in 1744 the future Catherine the Great lamented the pitiful scarcity of furniture in the Imperial palaces Within less than a hundred years those palaces and the grandiose apartments which sprang up alongside them in the burst of building activity that gripped Russia at the end of the eighteenth century were filled with magnificent furniture as befitted their sumptuous decor This remarkable period and the flamboyant style it engendered have only recently excited interest in the West literature on this subject is not only scarce but also largely written in Russian *Russian Furniture* is therefore valuable as a comprehensive study in English of the development and evolution of Russian furniture styles during the late eighteenth and early nineteenth centuries **European Furniture in The Metropolitan**
