Roger Keyes Cecil Faber Aspinall-Oglander, 1951 Admiral of the Fleet Roger John Brownlow Keyes 1st Baron Keyes Bt GCB KCVO CMG DSO RN 4 October 1872 26 December 1945 was a noted British admiral with an active service life that ran from 19th century patrols off the coast of Africa against Arab slavers to the Allied landings in Leyte in World War II He was regarded throughout the British Empire as one of the great military heroes of his day Wikipedia *Aberdeen University Review*, 1920 Includes provisional roll of service of the university in the European war 1914 June 30 1915 2 p 1 84 p appended to v 2 *Dover and the Great War* John Benjamin Firth, 1919 *Killing the Enemy* Adam Leong Kok Wey, 2015-09-28 During World War II the British formed a secret division the SOE or Special Operations Executive in order to support resistance organisations in occupied Europe It also engaged in targeted killing the assassination of enemy political and military leaders The unit is famous for equipping its agents with tools for use behind enemy lines such as folding motorbikes miniature submarines and suicide pills disguised as coat buttons But its activities are now also gaining attention as a forerunner to today's extra legal killings of wartime enemies in foreign territory for example through the use of unmanned drones Adam Leong's work evaluates the effectiveness of political assassination in wartime using four examples Heydrich's assassination in Prague Operation Anthropoid the daring kidnap of Major General Kreipe in Crete by Patrick Leigh Fermor the failed attempt to assassinate Rommel known as Operation Flipper and the American assassination of General Yamamoto *Wielding the Dagger* Mark D. Karau, 2003-10-30 In August 1914 Admiral Alfred von Tirpitz convinced the German armed forces to create a new unit called the Marine Division Flanders to garrison the Belgian coastline and prepare naval bases in for the implementation of a naval guerrilla war against Great Britain The Germans called their strategy Kleinkrieg or little war and they intended to whittle away at British naval superiority by using their submarines and destroyers Later expanded into the Marine Korps the unit soon found itself in the middle of a land war as well What had been intended as a garrison unit found itself on the frontlines when the war stalemated The British had traditionally seen Belgium as a dagger pointed at the throat of England and the Royal Navy feared what use the Germans might make of the position The result was an active naval campaign in the English Channel Karau brings to light the contributions of the Marine Korps Flanders a force often neglected by historians He examines the role of the Marine Korps in both land and naval wars and reaffirms the increasingly important role played by aircraft in the Flanders theater If Belgium was a weapon pointed at the British throat were the Germans properly equipped to wield the dagger *British Policy and Strategy towards Norway, 1941-45* C. Mann, 2012-11-19 After the German occupation of 1940 Britain was forced to reassess its relationship with Norway a country largely on the periphery of the main theatres of the Second World War Christopher Mann examines British military policy towards Norway concentrating on the commando raids deception planning and naval operations **The**
