*Rogues* Jacques Derrida, 2005 *Rogues* published in France under the title *Voyous* comprises two major lectures that Derrida delivered in 2002 investigating the foundations of the sovereignty of the nation state The term *voyou* is the French equivalent of rogue state and it is this outlaw designation of certain countries by the leading global powers that Derrida rigorously and exhaustively examines Derrida examines the history of the concept of sovereignty engaging with the work of Bodin Hobbes Rousseau Schmitt and others Against this background he delineates his understanding of democracy to come which he distinguishes clearly from any kind of regulating ideal or teleological horizon The idea that democracy will always remain in the future is not a temporal notion Rather the phrase would name the coming of the unforeseeable other the structure of an event beyond calculation and program Derrida thus aligns this understanding of democracy with the logic he has worked out elsewhere But it is not just political philosophy that is brought under deconstructive scrutiny here Derrida provides unflinching and hard hitting assessments of current political realities and these essays are highly engaged with events of the post 9 11 world

"*Beyond This Narrow Now*" Nahum Dimitri Chandler, 2021-11-15 In *Beyond This Narrow Now* Nahum Dimitri Chandler shows that the premises of W E B Du Bois's thinking at the turn of the twentieth century stand as fundamental references for the whole itinerary of his thought Opening with a distinct approach to the legacy of Du Bois Chandler proceeds through a series of close readings of Du Bois's early essays previously unpublished or seldom studied with discrete annotations of *The Souls of Black Folk* *Essays and Sketches* of 1903 elucidating and elaborating basic epistemological terms of his thought With theoretical attention to how the African American stands as an example of possibility for Du Bois and renders problematic traditional ontological thought Chandler also proposes that Du Bois's most well known phrase the problem of the color line sustains more conceptual depth than has yet been understood with pertinence for our accounts of modern systems of enslavement and imperial colonialism and the incipient moments of modern capitalization Chandler's work exemplifies a more profound engagement with Du Bois demonstrating that he must be re read appreciated and studied anew as a philosophical writer and thinker contemporary to our time

**X—The Problem of the Negro as a Problem for Thought** Nahum Dimitri Chandler, 2013-12-15 The acclaimed scholar and author of *Beyond This Narrow Now* presents a provocative new reading of W E B Du Bois with far reaching implications X *The Problem of the Negro as a Problem for Thought* offers an original account of matters African American and by implication the African diaspora in general as an object of discourse and knowledge It likewise challenges the conception of analogous objects of study across dominant ethnological disciplines e g anthropology history and sociology and the various forms of cultural ethnic and postcolonial studies With special reference to the work of W E B Du Bois Chandler shows how a concern with the Negro is central to the social and historical problematization that underwrote twentieth century explorations of what it means to exist as an historical entity referring to their antecedents in eighteenth century thought and forward into their

ongoing itinerary in the twenty first century Nahum Chandler is one of the very few truly indispensable thinkers at work in the study of the African diaspora which is as he so brilliantly shows the study of the modern world Fred Moten Duke University

**Hope in a Secular Age** David Newheiser,2019-12-19 Uses premodern theology and postmodern theory to show the endurance of religious and political commitments through the practice of hope *Imagines of Connectivity* Luis Lobo-Guerrero,Suvi Alt,Maarten Meijer,2019-11-20 This edited collection addresses the problem of how the creation of novel spaces of governance relates to imaginaries of connectivity in time While connectivity seems almost ubiquitous today it has been imagined and practiced in various ways and to varying political effects in different historical and geographical contexts Often the conception of new connectivities also gives birth to new spaces of governance The political denomination of spaces whether maritime continental social or virtual reflects the situatedness of power Yet such crafting of new spaces also expresses particular imaginaries and technologies of connectivity that make governance possible Whereas the study of international relations has traditionally focused on the role of agency and structure in power relations the affects beliefs attitudes and practices that intervene in how groups of people connect in given times have not attracted much scholarly attention Overall the detailed and original case studies examined in the book range from the 16th century to the 19th century to the present and from Spain to the Maritime Alps to Germany to the Mediterranean to China to East Asia The historical and geographical variety of the cases serves to highlight the diversity of the meaning and function of connectivity in the constitution of novel spaces of governance

The Ecology Politic Anthony Burke,Stefanie Fishel,2025-05-06 A compelling proposal for new international law and institutions to address the planetary crisis that improves biodiversity protection supports Indigenous peoples and prevents catastrophic climate change In *The Ecology Politic* Anthony Burke and Stefanie Fishel contend that the roots of our planetary crisis lie in the modern state in its destructive entanglement with capitalism and its colonial legacies of extraction and oppression This in turn has shaped global governance and international law as they continue to fail to curb global heating deforestation and extinction In a far reaching critique of the foundational political theory of the modern state the *Body Politic* the authors insist that nothing less than a radically different model of the polity an *Ecology Politic* is needed if we are to escape this impasse Burke and Fishel argue that the international rule of law enacts a sovereign ban of nature that appropriates nonhuman lives for profit and use while denying them political and legal standing We fail because we rely on the very institutions worldviews and systems that generated the crisis to solve it The authors reconsider political power agency scale and democracy in the Anthropocene and assert a biospheric ethic that values the entangled planetary structure of matter energy and life Further they argue for more than human beings to be represented in an ecological democracy that flows across borders In short they imagine a polity whose fundamental purpose is to protect planetary ecosystems and nurture interlocking systems of social and ecological justice

*Merleau-Ponty's Developmental Ontology* David Morris,2018-10-15 Winner of the 2020 Edward Goodwin Ballard Prize in Phenomenology Merleau Ponty s

Developmental Ontology shows how the philosophy of Maurice Merleau Ponty from its very beginnings seeks to find sense or meaning within nature and how this quest calls for and develops into a radically new ontology David Morris first gives an illuminating analysis of sense showing how it requires understanding nature as engendering new norms He then presents innovative studies of Merleau Ponty's *The Structure of Behavior* and *Phenomenology of Perception* revealing how these early works are oriented by the problem of sense and already lead to difficulties about nature temporality and ontology that preoccupy Merleau Ponty's later work Morris shows how resolving these difficulties requires seeking sense through its appearance in nature prior to experience ultimately leading to radically new concepts of nature time and philosophy Merleau Ponty's *Developmental Ontology* makes key issues in Merleau Ponty's philosophy clear and accessible to a broad audience while also advancing original philosophical conclusions

**Biblical Animality after Jacques Derrida** Hannah M. Strømme, 2018-08-10 A new theoretical and exegetical angle on the Bible and animal studies According to Genesis humans are made in God's image but animals are not Hannah M Strømme challenges this view by critiquing the boundary between humans and animals in the Bible through the work of philosopher Jacques Derrida Building on Derrida's *The Animal That Therefore I Am* Strømme brings to light significant moments where the lines between the divine human and animal are ambiguous in a rich range of biblical texts from Noah as the first carnivorous man in Genesis 9 to Revelation's beasts Features A contribution to research on Jacques Derrida and deconstruction An examination of Derrida's work on the human animal boundary Critical engagement with the way the Bible is frequently held up as a point of blame for anthropocentrism

Onderco, 2014-03-30 Rogue states have been high on the policy agenda for many years but their theoretical significance for international relations has remained poorly understood In contrast to the bulk of writings on rogue states that address them merely as a policy challenge this book studies what we can learn from deviance about international politics

*The Return of Totalitarianism* Žarko Paić, 2022-12-07 This book enters into a detailed discussion with many theorists of totalitarianism and demands a re-evaluation of approaches that speak of mass manipulation of people and ideological control mechanisms arko Pai shows that totalitarianism cannot be only a political ideological problem but rather a problem of the relationship between the technosphere political power and the narcissistic culture of the spectacle which offers postmodern revisionism and forgetfulness of history as opposed to brave civic participation in the public sphere of acting together He investigates the transformations the political and cultural processes linked to the notion of totalitarianism undergo in the contemporary world and the transformations and differences that this notion expresses today in comparison to what was realized by fascism Nazism and Stalinism in the 20th century

**Border Crossings** Lauren Clark, Colin Younger, 2013-11-13 Borderlands boundaries and frontiers are crucibles for diverse cultures and multiple alternative histories Nowhere is this truer than in the debateable lands between nation states in what is commonly known as the British Isles This collection takes the reader on an imaginative journey inside the borders offering a fresh perspective on the liminality of these porous and contested terrains and the liminal peoples therein Implicitly or explicitly the contributors to this volume in one way or another acknowledge that the term *borderland* is imprecise ambiguous and never neutral and due to its liminal status a crucible for multiple and competing identities As the essays in this collection show these borders don't have to be geographical but can extend to any

cultural psychic or social terrain which exists beyond or between accepted categories power structures nations or states This collection concerns itself with Borders Theory in its multifarious manifestations from pre history to the present day Border Crossings draws together a number of key researchers in their respective fields and enables a dialogue between different disciplines and theoreticians More generally in its disciplinary and theoretical scope the collection links with a number of other works whilst its focus on England Ireland and Scotland maintains its distinctiveness and addresses an area of comparative critical neglect
