volume set examines China's recent history where it is today and the path it should follow during the first two decades of the 21st century. The volume in the set entitled *Financing Health Care: Issues and Options for China* assesses the state of health care in China and addresses the problems facing the sector in terms of financial access to health care, efficiency, and total cost. Although the health sector is in relatively good condition today, this study asserts the need to promptly make policy changes to ensure universal health care coverage by either the public or the private sector over the next two decades. Chapters focus on the effects of reduced public health spending on rural populations, the likely increase in health costs as the population ages, the harmful effects of tobacco use, and fee-for-service provider systems.
