Law, State and Inequality in Pakistan Muhammad Azeem, 2017-07-02 Through a detailed historical and empirical account of post independence years this book offers a new assessment of the role of the judiciary in Pakistani politics Instead of seeing the judiciary as helpless or struggling against an

authoritarian state it argues that the judiciary has been a crucial link in the creation of state and political inequality in Pakistan This rubs against the central role given to the judiciary in developing countries to fix the corrupt politicians and stubborn bureaucracies in the World Bank's Good Governance paradigm and rule of law initiatives It also challenges the contemporary legal and judicial discourse that extols the virtues of Public Interest Litigation While the book's core analysis is a critique of the contemporary liberal legal project it also adds to the critical tradition of social theory by linking political economy to a social theory of law The theoretical aspect of the study is applicable to any developing society whose judiciary is going through foreign sponsored rule of law judicial reforms **India, Pakistan, and Democracy** Philip

advocating a preferred conception of a model court for achieving true judicial independence as part of a rule of law system. This book seeks to reorient the prevailing approach to the study of judicial independence by better understanding how judicial independence operates within domestic legal systems in its institutional and legal dimensions. It asks how and why different conceptualisations of judicial independence emerge over time by comparing detailed case studies of courts in two legally pluralistic states which share inheritances of British rule and the common law. By tracing the development of judicial independence in the legal systems of Malaysia and Pakistan from the time of independence to the present, the book offers an insightful comparison of how judicial independence took shape and developed in these countries over time. From this comparison, it suggests a number of contextual factors that can be seen to play a role in the evolution of judicial independence. The study draws upon the significant divergence observed in the case studies to propose a refined understanding of the idea of an independent judiciary, termed the pragmatic and context-sensitive theory, which may be seen in contradistinction to a universal approach. While judicial independence responds to the core need of judges to be perceived as an impartial third party by constructing formal and informal constraints on the judge and relationships between judges and others, its meaning in a legal system is inevitably shaped by the judicial role along with other features at the domestic level. The book concludes that the adaptive and pragmatic qualities of judicial independence supply it with relevance and legitimacy within a domestic legal system.

Modern Challenges to Islamic Law Shaheen Sardar Ali, 2016-10-06. The diversity of interpretation within Islamic legal traditions can be challenging for those working within this field of study. Using a distinctly contextual approach, this book addresses such challenges by combining theoretical perspectives on Islamic law with insight into how local understandings impact on the application of law in Muslim daily life. Engaging with topics as diverse as Islamic constitutionalism, Islamic finance, human rights, and internet fatawa, Shaheen Sardar Ali provides an invaluable resource for scholars, students, and practitioners alike by exploring exactly what constitutes Islamic law in the contemporary world. Useful examples, case studies, a glossary of terms, and the author's personal reflections accompany traditional academic critique, and together offer the reader a unique and discerning discussion of Islamic law in practice.

The London-Leiden Series on Law, Administration and Development, 2006. [The Islamization of the Law in Pakistan \(RLE Politics of Islam\)](#) Rubya Mehdi, 2013-06-03. This is a detailed critical study of the reforms which have been made in recent years to the law in the State of Pakistan with the ostensible objective of bringing it into accord with the requirements of Islam. Special emphasis is given to the period from 1977 when General Zia ul Haque adopted a period of Islamization. This is a field of investigation of considerable importance both for the advancement of legal and political theory and for practical purposes, especially as regards human rights. The author, trained both in Pakistan law and the concepts and practice of Islamic law, has been able to advance significantly our understanding of the doctrinal developments documented in this book. First published in 1994.
