

ROLE	DUTIES	CHOICE	REASON FOR CHOICE
CINEMATOGRAPHER	Devise style and visual approach Liaise with director and set designer Rece Locations Organise lighting Create equipment list Shoot tests – Shot scenes	Sam Hayman & Will Hounsell	As the music video is a combination of our ideas we thought it best to find the locations and organize our visual style together.
PRODUCTION MANAGER	Organise schedule Maintain production diary Take meeting notes Create call sheets Organise budget Liaise with external bodies	Sam Hayman	As the most organized person in the group and with the editing requiring both Will Hounsell and Sam McCourt, the meeting notes and production diary are to be done by me.
EDITOR	Liaise with director and cinematographer re: coverage Edit footage Test for effects and filters Organise raw footage Create shots list for reshoot	Will Hounsell & Sam McCourt	Will Hounsell is to be in charge of the editing team and to do the cuts himself while Sam McCourt does the visual effects for the video.
PRODUCTION DESIGNER	Responsible for: Props Dressing of sets and location Casting, - wardrobes Musical equipment if necessary Location recon	Sam Hayman	As the main actor I have agreed to get my own wardrobe and bring in the guitar and drum sticks we will be using also
DIRECTOR	Organising the on set shoot Storyboarding Leading production meetings Liaising with rest of teams creatives to deadlines and realise ideas.	Will Hounsell	During our production of "Hunted" Will was the main character and editor, through out it's production Will always gave me (the director) his opinions he was basically the assistant director. As editor and co-cinematographer his directing ability will be enhanced and make it easier for him to show everyone his vision.

Parliamentary Roles in Modern Legislatures Magnus Blomgren, Olivier Rozenberg, 2015-02-13 This book gathers the most influential authors on role research and legislative studies to examine the different roles that MPs are playing in modern day legislatures It provides a comprehensive and critical overview of current research on legislative roles summarises previous research presents a large variety of methodological approaches and also explores the latest developing approaches to role theory The concept of political roles has become increasingly relevant for understanding contemporary political systems Parliamentary legislative and representative roles are professional roles that provide a way of connecting the individual legislator to their institution

that can also explain a legislator's attitude and behaviour Drawing upon case studies with as much as 40 years of data that include Germany the Netherlands UK Austria Hungary Australia New Zealand and the European Parliament this book examines the link between representative roles different institutional settings and parliamentary behaviour It argues that the roles MPs play depend of who they think they should represent between their voters their party the people of their country and also themselves conflicts of loyalty can occur This book provides a framework to analyse MPs choices by searching both the reasons for their views about representation and the consequences of those views in parliament Parliamentary Roles in Modern Legislatures will be of strong interest to students and scholars of government legislative studies political parties comparative politics political sociology and deliberative democracy

Memory Systems of the Addicted Brain: The Underestimated Role of Drug-Induced Cognitive Biases in Addiction and Its Treatment Vincent David, Daniel Béracochéa, Mark E. Walton, 2018-06-08 Drug addiction may be viewed as a form of learning during which strong associations linking actions to drug seeking are expressed as persistent stimulus response habits thereby maintaining a vulnerability to relapse Disrupting cue drug memory could be an efficient strategy to reduce the strength of cues in motivating drug taking behavior Upon reactivation these memories undergo a reconsolidation process that can be blocked pharmacologically providing an opportunity to prevent the powerful control of drug cues on behavior This conceptually elegant approach still calls for more experimental data However an increasing body of evidence suggests that drug taking not only accelerates habit forming but has long lasting effects on interactions between memory systems eventually leading to a functional imbalance The dorsal part of the striatum plays a critical role in habit procedural learning whereas the hippocampal memory system encodes relationships between events and their later flexible use Both humans and rodents studies support the view that the hippocampus and the dorsal striatum interact in either a cooperative or competitive manner during learning the prefrontal cortex being involved in the selection of an appropriate learning strategy Chronic drug consumption biases normal interactions between these memory systems For instance drug experienced rodents tend to use preferentially striatum dependent learning strategies in navigational tasks These persistent effects seem to occur at cellular neurophysiological and behavioral levels to promote specific striatal dependent forms of learning to the detriment of spatial declarative hippocampal dependent and more flexible types of memory Whether cue sensitive and response learners in contrast to spatial learners could be prone to drug addiction is an intriguing hypothesis which clearly deserves to be further explored A loss of flexibility may be uncovered also by imposing changing rules on the subject such as requiring an attentional shift between different perceptual features of a complex stimulus as in the attentional set shifting task which was recently adapted to rodents Working memory is at risk during transition phases although it remains to be determined whether withdrawal induced alterations are observed also during protracted abstinence Drug induced cognitive biases thus lead to cognitive rigidity which could play a critical yet overlooked role in different phases of addiction acquisition extinction withdrawal and relapse

They are also likely to preclude the clinical efficiency of treatments Therefore the aim of this research topic is to provide an overview of the current work investigating the long term impact of drug use on learning and memory processes how multiple memory systems modulate drug seeking behavior as well as how drug induced cognitive biases could contribute to the persistence of addictive behaviors

The Role of Economics in Eating Choices and Weight Outcomes Lisa Mancino, Biing-Hwan Lin, Nicole Ballenger, 2004 This report uses data from the USDA's 1994-96 Continuing Survey of Food Intakes by Individuals and the 1994-1996 Diet and Health Knowledge Survey to ascertain whether economic factors help explain weight differences among adults Weight differences among demographic subgroups and difference in specific behaviors health awareness and eating patterns can be linked to weight outcomes An economic framework helps explain how socioeconomic factors affect an individual's ability to achieve good health Our results suggest that income household composition and formal education help explain variation in behaviors and attitudes that are significantly associated with weight outcomes

Communication and Sex-role Socialization Cynthia Berryman-Fink, Deborah Ballard-Reisch, Lisa H. Newman, 2015-10-23 Originally published in 1993 The essays in this book collectively seek to illuminate the role of communication and sex role socialization throughout the life cycle Section 1 addresses some important issues and behaviours that have an impact on the beginnings of the socialization process Section 2 covers socialization later on in relationships the workplace and the political arena while section 3 looks at manifestations of socialization through communication strategies and skills Finally section 4 addresses ways to alter socialization through instructional practices in higher education The approach to studying sex role socialization varies by perspective and methodology and conclusions are interpreted in diverse ways but the results have been very similar and the research in this volume shows that the socialization of males and females continues to reinforce male dominance despite women's advancement toward equal status in society This work is of interest in the fields of sociology psychology anthropology and women's studies as well as communication

People, Plans, and Policies Herbert J. Gans,1993 The primary theme of this collection of essays is that the cities basic problems are poverty and racism and until these concerns are addressed by bringing about racial equality creating jobs and instituting other reforms the generally low quality of urban life will persist Gans argues that the individual must work to alter society He believes that not only must parents have jobs to improve their children's school performance but that the country needs a modernized New Deal a more labor intensive economy and a thirty two hour work week to achieve full employment Other controversial ideas presented in this book include Gans's opposition to the whole notion of an underclass which he feels is the latest way for the nonpoor to unjustly label the poor as undeserving He also believes that poverty continues to

plague society because it is often useful to the nonpoor He is critical of architecture that aims above all to be aesthetic or to make philosophical statements is doubtful that planners can or should try to reform our social or personal lives and thinks we should concentrate on achieving individual public policies until we learn how to properly plan as a society

Experiencing Cities Mark Hutter, 2015-12-22 This extraordinary text for undergraduate urban students is a reflection of Mark Hutter's academic interests in urban sociology and his life long passion for experiencing city life His deep academic roots in the Chicago School of Sociology help inform and appreciate the variety of urban structures and processes and their effect on the everyday lives of people living in cities This text however extends the Chicago School perspective by combining its traditions with a social psychological perspective derived from symbolic interaction and also with a macro level examination of social organization social change stratification and power in the urban context informed by political economy This entirely new 3rd Edition has a global outlook on city life and a visual presentation unmatched among books in this genre
