Round Up The Usual Suspects:

Round Up the Usual Suspects Aljean Harmetz, 1992-11-26 An inside look at the making of Casablanca offers fresh insights into and revelations about the people the period and the countless details that all had a hand in shaping the quintessential movie lover's movie

The New Politics of the Welfare State Paul Pierson, 2001 The welfare states of the affluent democracies now stand at the centre of political discussion and social conflict In these path breaking essays an international team of leading analysts rejects simplistic claims about the impact of economic globalization Economic demographic and social pressures on the welfare state are very real but many of the most fundamental challenges have little to do with globalization Nor do the authors detect signs of a convergence of national social policies towards an American style lowest common denominator The contemporary politics of the welfare state takes shape against a backdrop of both intense pressures for austerity and enduring popularity Thus in most of the affluent democracies the politics of social policy centre on the renegotiation restructuring and modernization of the post war social contract rather than its dismantling The authors examine a wide range of countries and public policies arenas including health care pensions and labour markets They demonstrate how different national settings affect whether and on what terms centrist efforts to restructure the welfare state can succeed

The Price of Fear Ibrahim Warde, 2007 Ibrahim Warde exposes the Bush administration's much ballyhooed but often duplicitous war on terrorist finances which has nabbed few bad guys ruined many innocents frozen little hot money and vastly complicated worldwide banking for the greater glory of a burgeoning American bureaucracy Jonathan Randal author of Osama The Making of a Terrorist Ibrahim Warde takes a long overdue skeptical look at the widely held view that money is

the oxygen of terrorism That conclusion has resulted in a financial war on terror launched by the US government that in many cases has produced meager or even counterproductive results Warde writes with great clarity and his book is very well reported It is a welcome addition to a field that has been largely the preserve of alarmists with little interest in the kinds of reporting done by Warde Peter Bergen author of The Osama bin Laden I Know A pleasure to read remarkably informative about a subject that the press seems to have mangled This ought to have a big impact Chalmers Johnson author Blowback The Costs and Consequences of American Empire Is it any wonder that with thinking like this American policy went adrift in the war on terror not able to find a solid base on which to move forward Patrick Lloyd Hatcher author of North Atlantic Civilization at War A witty irreverent analysis of the financial war on terror A must read for anyone interested in the Middle East and the global economy Clement M Henry co author of Globalization and the Politics of Development in the Middle East
