Gender Across Languages Marlis Hellinger, Hadumod Bußmann, 2002-04-10 This is the second of a three volume comprehensive reference work on Gender across Languages which provides systematic descriptions of various categories of gender grammatical lexical referential social in 30 languages of diverse genetic typological and socio cultural backgrounds Among the issues discussed for each language are the following What are the structural properties of the language that have an impact on the relations between language and gender What are the consequences for areas such as agreement pronominalisation and word formation How is specification of and abstraction from referential gender achieved in a language Is empirical evidence available for the assumption that masculine male expressions are interpreted as generics Can tendencies of variation and change be observed and have alternatives been proposed for a more equal linguistic treatment of women and men This volume and the previous two volumes will provide the much needed basis for explicitly comparative analyses of gender across languages All chapters are original contributions and follow a common general outline developed by the editors The book contains rich bibliographical and indexical material

Languages of Volume 2 Chinese Dutch Finnish Hindi Icelandic Italian Norwegian Spanish Vietnamese Welsh

Phoronyms Christopher I. Beckwith, 2007 This is the first book devoted to the phoronym a largely overlooked grammatical category that includes measures such as cup in a cup of tea classifiers such as head in ten head of cattle and other types all of which occur in the pseudopartitive construction Both measures and noun classification the defining feature of classifiers are thought to occur in all languages so the phoronym is a linguistic universal This book is the first to combine the two major theoretical approaches to the topic and includes the first detailed studies of group classifiers and repeaters as well as the first study of classifiers in Finnish and Russian It also covers class nouns and their components which are connected grammatically and

semantically to both classifiers and gender and discusses possible connections of classifiers with sublinguistic cognition The analysis focuses on Mandarin Chinese English Japanese and Thai but Finnish Hungarian Tibetan Uzbek and other languages are also discussed

Norms and Conventions in the History of English Birte Bös, Claudia Claridge, 2019-06-15 This volume explores changing norms and conventions in the English language as displayed in a broad range of historical data from more than five centuries The contributions discuss the interplay of sociocultural conditions specific discourse traditions and structural aspects of language paying special attention to the communities where norms and conventions are displayed and shaped in verbal interaction The volume is enriched by systematic terminological clarifications interdisciplinary approaches and the introduction of new methods like network analysis and advanced analytical tools and forms of visualisation into the diachronic investigation of historical texts

A Biblical Hebrew Reference Grammar Christo H. van der Merwe, Jacobus A. Onomatopoeia in the World's Languages Livia Körtvélyessy, Pavol Štekauer, 2024-04-01 This is the very first publication mapping onomatopoeia in the languages of the world The publication provides a comprehensive multi

level description of onomatopoeia in the world's languages. The sample covers six macro areas defined in the WALS: Euroasia, Africa, South America, North America, Australia, and Papunesia. Each language descriptive chapter specifies phonological, morphological, word formation, semantic, and syntactic properties of onomatopoeia in the particular language. Furthermore, it provides information about the approach to onomatopoeia in individual linguistic traditions, the sources of data on onomatopoeia, the place and the function of onomatopoeia in the system of each language.

Corpus Linguistics in Literary Analysis Bettina Fischer-Starcke, 2010-08-26. Corpus Linguistics and The Study of Literature provides a theoretical introduction to corpus stylistics and also demonstrates its application by presenting corpus stylistic analyses of literary texts and corpora. The first part of the book addresses theoretical issues such as the relationship between subjectivity and objectivity in corpus linguistic analyses, criteria for the evaluation of results from corpus linguistic analyses, and also discusses units of meaning in language. The second part of the book takes this theory and applies it to *Northanger Abbey* by Jane Austen and to two corpora consisting of Austen's six novels and texts that are contemporary with Austen. The analyses demonstrate the impact of various features of text on literary meanings and how corpus tools can extract new critical angles. This book will be a key read for upper level undergraduates and postgraduates working in corpus linguistics and in stylistics on linguistics and language studies courses. The editorial board includes Paul Baker, Lancaster; Frantisek Cermak, Prague; Susan Conrad, Portland; Geoffrey Leech, Lancaster; Dominique Maingueneau, Paris XII; Christian Mair, Freiburg; Alan Partington, Bologna; Elena Tognini Bonelli, Siena; and TWC Ruth Wodak, Lancaster; and Feng Zhiwei, Beijing. The Corpus and Discourse series consists of two strands. The first, *Research in Corpus and Discourse*, features innovative contributions to various aspects of corpus linguistics and a wide range of applications from language technology via the teaching of a second language to a history of mentalities. The second strand, *Studies in Corpus and Discourse*, is comprised of key texts bridging the gap between social studies and linguistics. Although equally academically rigorous, this strand will be aimed at a wider audience of academics and postgraduate students working in both disciplines.

Information and Communication Technologies in Tourism 2025 Lyndon Nixon, Aarni Tuomi, Peter O'Connor, 2025-06-30. This book provides an extensive overview of the latest developments in information and communication technologies (ICTs) in the tourism and hospitality industry. Featuring papers presented at the International Federation for IT and Travel, what role does technology play in driving sustainable development, how emerging technologies impact customer and employee experiences, and how challenges and dangers presented by technological disruption can be addressed. This book is valuable to scholars, researchers, students, and practitioners in tourism and hospitality.

The History of Linguistics in Europe Vivien Law, 2003-01-30. This authoritative and wide-ranging book, first published in 2003, examines the history of western linguistics over a 2000-year timespan from its origins in ancient Greece up to the crucial moment of change in the Renaissance that laid the foundations of modern linguistics. Some of today's burning questions about language date back a long way: in 1400 BC, Plato was asking how words

relate to reality Other questions go back just a few generations such as our interest in the mechanisms of language change or in the social factors that shape the way we speak Vivien Law explores how ideas about language over the centuries have changed to reflect changing modes of thinking A survey chapter brings the coverage of the book up to the present day Classified bibliographies and chapters on research resources and the qualities the historian of linguistics needs to develop provide the reader with the tools to go further

Diminutives in English Klaus P. Schneider, 2012-10-24 That English has no diminutives is a common myth The present study shows however that English does possess diminutives and not only analytic but also synthetic diminutive markers Analytic markers include first and foremost little as well as other adjectives from the same word field whereas the inventory of synthetic markers comprises suffixes as for instance *ette* *let* *kin* *een* *s* *er* *poo* and *pegs* These markers are examined from a grammatical and a pragmatic perspective in an integrative formal functional framework The grammatical perspective involves phonological morphological and semantic features while the pragmatic perspective involves pragmalinguistic as well as sociopragmatic features on the levels of the speech act and larger interactive units in dialogue The findings reveal that English diminutive suffixes are in fact among the most productive suffixes of the English language While the suffixes share a number of features each has developed its own profile specifically regarding semantic and pragmatic features In everyday conversation there is a division of labour between the synthetic and the analytic type of formation concerning the communicative functions of diminutives and their distribution in discourse The choice of formal device and its function depend crucially on pragmatic factors notably on the illocution the interactive status the realisation strategy and the politeness value of the utterances in which diminutives are employed and also on the relationship between the interlocutors

Opening Windows on Texts and Discourses of the Past Janne Skaffari, Matti Peikola, Ruth Carroll, Risto Hiltunen, Brita Wårvik, 2005-03-24 This volume presents a variety of pragmatic and discourse analytical approaches to a wide range of linguistic data and historical texts including data from English French Irish Latin and Spanish This diversity of research questions and methods is a feature of the field of historical pragmatics which by its very nature has to take into account the multiplicity of historical contexts and the infinite variety of human interaction This is highlighted in the book's introduction by means of the metaphor of opening windows Each chapter is a window affording a different view of the linguistic and textual landscape Some of these windows were opened by historical linguists who have acquired discourse perspectives some by pragmaticians with historical interests and others by literary scholars drawing from linguistic pragmatics Contributors include L J Brinton A H Jucker F Salager Meyer I Taavitsainen B Wehr L Wright and sixteen others

Manual of Judaeo-Romance Linguistics and Philology Guido Mensching, Frank Savelsberg, 2023-10-24 This manual provides a detailed presentation of the various Romance languages as they appear in texts written by Jews mostly using the Hebrew alphabet It gives a comprehensive overview of the Jews and the Romance languages in the Middle Ages part I as well as after the expulsions part II These sections are dedicated to Judaeo Romance texts and linguistic traditions

mainly from Italy northern and southern France French and Occitan and the Iberian Peninsula Catalan Spanish Portuguese The Judaeo Spanish varieties of the 20th and 21st centuries are discussed in a separate section part III due to the fact that Judaeo Spanish can be considered an independent language This section includes detailed descriptions of its phonetics phonology morphology lexicon and syntax

Hybridity in Translated Chinese Guangrong Dai, 2016-05-20 This book investigates the characteristics of hybridity in Chinese texts that have been translated from English It also explores the potential impact of translation and hybridity on written Chinese over the past 70 years It suggests that English Chinese translations have introduced more and more hybrid structures into Chinese This book can help us with understanding language change and development and it can also shed new light on the translation process and help identify translation norms

Functional Perspectives on Grammar and Discourse Christopher Butler, Raquel Hidalgo Downing, Julia Lavid, 2007 This book a tribute to Angela Downing consists of twenty papers taking a broadly functional perspective on language with topics ranging from the general grammar as an evolutionary product text comprehension integrative linguistics to particular aspects of the grammars of languages Bulgarian English Icelandic Spanish Swedish The more specific papers are sequenced according to Halliday's division into ideational textual and interpersonal aspects of the grammar and cover a wide range of areas including aspect argument structure noun phrase nominal group structure and nominalisations pronominal clitics theme in relation to writing skills discourse structures and markers the role of attention in conversation the functions of topic phatic communion subjectification formulaic language and modality A recurrent theme in the volume is the use of corpus materials in order to base functional descriptions on authentic productions Overall the volume constitutes a panoramic but nevertheless detailed view of some important current trends in functional linguistics
