From 19th Century Femininity in Literature to 20th Century Feminism on Film: Discourse Translation and Adaptation

Oana-Celia Gheorghiu, 2015-07-28. Aiming at both identifying the representation of femininity as a social construct and analysing the way in which it can be translated into film adaptations of novels, this work focuses on the interpretations of a famous and at the same time problematic literary work, namely the 1994 film *Little Women* directed by Gillian Armstrong, reworking the classic nineteenth-century American best-seller *Little Women* by Louisa May Alcott. In particular, drawing on the critical apparatus of feminism, the paper lays emphasis on the way in which the metafictional texture of the novel captures instances of reality into fiction, glimpses of autobiography and, of course, femininity at the level of the filmic text. Such aspects are then considered from the perspective of adaptation and translation theories, contrasting the literary translation with the audio-visual one. The undertaking means to highlight the losses in the latter mode of expression and the extent to which the defining elements aforementioned are preserved in the Romanian language.

The New Wave of British Women Playwrights Elisabeth Angel-Perez, Aloysia Rousseau, 2023-01-30. It is a fact that today's British stages resound with powerfully innovative voices and that very often these voices have been those of young women playwrights. This collection of essays gives visibility and pride of place to these fascinating voices by exploring the vitality, inventiveness and particularly strong relevance of these poetics. These women playwrights sometimes invent radically new forms and sometimes experiment with conventional ones in fresh and unexpected ways, as for example when they re-energize naturalism and provide it with new missions. The plays that are addressed are all concerned with the necessity to grasp the complexity of the contemporary world and to further investigate what it means to be human. Intimate or epic and sometimes both at once, visionary or closer to everyday life, these plays approach the contemporary world through a multitude of prisms: historical, scientific, political and poetic, and open different and visionary perspectives.

Architecture, Society, and Ritual in Viking Age Scandinavia Marianne Hem Eriksen, 2019-02-28. In this book Marianne Hem Eriksen explores the social organization of Viking Age Scandinavia through a study of domestic architecture and, in particular, the doorway. A highly charged architectural element, the door is not merely a practical constructional solution. Doors control access, generate movement and demarcate boundaries, yet also serve as potent ritual objects. For this study Eriksen analyzes and interprets the archaeological data of house remains from Viking Age Norway, which are here synthesized for the first time. Using social approaches to architecture, she demonstrates how the domestic space of the Viking household, which could include masters and slaves, wives and mistresses, children and cattle, was not neutral. Quotidian and ritual interactions with, through and

orchestrated by doorways prove to be central to the production of a social world in the Viking Age Eriksen s book challenges the male dominated focus of research on the Vikings and expands research questions beyond topics of seaborne warriors trade and craft **Forthcoming Books** Rose Arny,2003 The Bookseller ,1909 Official organ of the book trade of the United Kingdom **Popular Music** Roman Iwaschkin,2016-04-14 This is a comprehensive guide to popular music literature first published in 1986 Its main focus is on American and British works but it includes significant works from other countries making it truly international in scope **1996** Massimo Mastrogregori,2014-02-21 Annually published since 1930 the International bibliography of Historical Sciences IBOHS is an international bibliography of the most important historical monographs and periodical articles published throughout the world which deal with history from the earliest to the most recent times The works are arranged systematically according to period region or historical discipline and within this classification alphabetically The bibliography contains a geographical index and indexes of persons and authors
