Murder Orthodoxies: A Non-Conspiracist's View of Marilyn Monroe's Death Donald R. McGovern,2018-05-04

Perhaps no one's death has stirred more interest controversy and theories than Marilyn Monroe's August 4 of 1962. In *Murder Orthodoxies* author Donald R McGovern analyzes and examines the many theories that Monroe was murdered by a host of curious characters from the middle Kennedy brothers to brutal gangsters to aliens. McGovern separates fact from fiction and theory from outlandish rumor. He addresses and debunks the usual allegations related to Monroe's death: the secrets recorded in her little red diary, her scheduled whistle-blowing press conference, the murder plots by organized crime and the brothers Kennedy, and the fatal injection of drugs along with many others. In *Murder Orthodoxies* McGovern restores logic and sanity to the investigation of Monroe's death. His thesis is based upon the premise that the engines of conspiracies are started and fueled by opinion not by facts. His credible conclusions are based on logic, science, toxicology, and forensic evidence.

Marilyn Monroe Michelle Morgan, 2012-08-30 For the first time in paperback, this valuable biography by the president of Marilyn Monroe's UK fan club contains the most comprehensive collection of primary source material on Marilyn Monroe, covering all stages of her life. It includes seventy rare and unpublished photographs. They include locations from various periods of her life: the schools she attended as Norma Jeane, the ballroom where she danced with first husband Jim Dougherty, the street where Marilyn claimed she was attacked by an intruder, and candid shots of her on the sets of films. Morgan has also interviewed every single person accessible who knew or was related to Marilyn in any way, including the main players in her life as well as work colleagues and more casual acquaintances. More than fifty interviewees are featured, many who've never gone on the record before, including contacts from her orphaned childhood and early years, details of which until now have remained mysterious. Documentary sources range from the private testimony of her gynecologist to the previously undisclosed Laurence Olivier papers relating to Marilyn's time in England. Following a series of sensationalist biographies of Marilyn Monroe in recent years, this comprehensive, meticulously researched volume brings an important, fresh perspective to the many controversies in her life and will serve as an essential sourcebook of documentary and photographic evidence.

Marilyn Monroe Jay Margolis, 2011 It is one of the greatest mysteries of the twentieth century: How did Marilyn Monroe die? Although no pills were found in her stomach during the autopsy, it was still documented in the Los Angeles coroner's report that she had swallowed sixty-four sleeping pills prior to her demise. In *Marilyn Monroe: A Case for Murder*, biographer Jay Margolis presents the most thorough investigation of Marilyn Monroe's death to date and shares how he reached the definitive conclusion that she was murdered. Margolis meticulously dissects the events leading up to her death, revealing a major conspiracy and countless lies. In an exclusive interview with actress Jane Russell three months before her death, he reveals Russell's belief that Monroe was murdered and points the finger at the man she held responsible. While examining the actions of Peter Lawford, Bobby Kennedy, and Monroe's psychiatrist Dr. Ralph Greenson, Margolis establishes a timeline of her last day alive that leads to shocking revelations. In August 1962, Marilyn Monroe's lifeless body was found on her bed, leaving all to wonder what really happened to the beautiful young starlet. *Marilyn Monroe: A Case for Murder*
