Nancy Astor:

Nancy Adrian Fort, 2013-01-22 A new biography of Nancy Astor American socialite and social crusader who blazed a trail through British society amid two World Wars In 1919 Nancy Astor became the first female Member of Parliament elected to the House of Commons she was not what had been expected Far from a virago who had suffered for the cause of female suffrage Lady Astor was already near the center of the ruling society that had for so long resisted the political upheavals of the early twentieth century having married into one of the richest families in the world She wasn't even British but the daughter of a famous Virginian family and fiercely proud of her expatriate ancestry But her moral drive was strong and she would utilize her position of privilege and influence to blow a bracing American wind into what she regarded as the stuffy corners of British politics This account charts Nancy Astor's incredible story from relative penury in the American South to a world of enormous countryside estates and townhouses and the most lavish entertainments peopled by the great figures of the day Churchill Chamberlain FDR Charlie Chapin J M Barrie and Lawrence of Arabia were all part of her social circle But hers was not to be an easy life of power and pure glamour it was also defined by principles and bravery war and sacrifice love and the most embittered disputes With glorious page turning brio Adrian Fort brings to life this restless controversial American dynamo an unforgettable woman who left a deep and lasting imprint on the political life of a nation

Nancy left Shaw numerous times during their marriage the first during their honeymoon In 1903 Nancy s mother died and the now divorced Nancy moved back to Mirador to try to run the household but was unsuccessful She left on a tour of England and fell in love with the country Since she had been so happy there her father suggested that she move to England Nancy was reluctant so he told her the move had been her mother s wish and would also be good for Nancy s younger sister Phyllis Nancy and Phyllis finally moved to England in 1905 The earlier trip to England had launched Nancy s reputation there as an interesting and witty American Her tendency to be witty and saucy in conversation yet religiously devout and almost prudish in behavior confused many of the English men but pleased some of the older socialites They liked conversing with the lively and exciting American who at the same time largely conformed to decency and restraint Nancy also began at this time to show her skill at winning over critics She was once asked by an English woman Have you come to get our husbands Her unexpected response If you knew the trouble I had getting rid of mine charmed her listeners and displayed the wit that later became famous Despite her denial however she married an Englishman Her second husband Waldorf Astor was born in the United States but his father had moved the family to England when Waldorf was twelve and raised his children as English aristocrats The couple were well matched from the start Not only were they both American expatriates with similar temperaments but they were of the same age being born on the same day 19 May 1879 He shared some of Nancy s moral attitudes and his heart condition may have encouraged him toward a restraint that she found comforting The marriage s success therefore seemed assured After the Astors married Nancy moved into Cliveden a lavish estate in Buckinghamshire on the River Thames and began her life as a prominent hostess for the social elite The Astors also owned a grand London house No 4 St James s Square which is now the premises of the Naval Military Club Through her many social connections Lady Astor became involved in a kind of political circle called Milner s Kindergarten Considered liberal in their age the group advocated unity and equality among English speaking people and a continuance or expansion of British imperialism
