AB Bookman's Weekly ,1996 *The Publishers' Circular and Booksellers' Record* ,1929 Publishers' Circular and Booksellers' Record of British and Foreign Literature ,1901 The Publishers Weekly ,1906 *Critical Philosophy of Race*
Robert Bernasconi,2023 The fifteen essays by distinguished philosopher of race Robert Bernasconi that are collected here demonstrate why the critical philosophy of race needs to take a historical turn Genealogies of the concepts of both race and racism clarify why some of the dominant strategies for combatting racism tend to be ineffective For example the Boasian UNESCO strategy that highlights biology s rejection of race neglects cultural racism Drawing on the work of Frantz Fanon the late Sartre and Michel Foucault Robert Bernasconi argues for a holistic approach that integrates the concrete experience of racism faced by individuals into the study of institutional structural and systemic racism His philosophical studies of such Black philosophers as Ottobah Cugoano Ant nor Firmin and W E B Du Bois contribute to challenging the dominant philosophical canon This volume will be an essential resource for scholars and students interested in this resurgent topic

Meltzer,2006-06-05 In the late 1920s outside a sleepy remote New Mexico village prehistory was made Spear points found embedded between the ribs of an extinct Ice Age bison at the site of Folsom finally resolved decades of bitter scientific controversy over whether the first Americans had arrived in the New World in Ice Age times Although Folsom is justly famous in the history of archaeology for resolving that dispute for decades little was known of the site except that it was very old This book for the first time tells the full story of Folsom David J Meltzer deftly combines the results of extensive new excavations and laboratory analyses from the late 1990s with the results of a complete examination and analysis of all the original artifacts and bison remains recovered in the 1920s now scattered in museums and small towns across the country Using the latest in archaeological method and technique and bringing in data from geology and paleoecology this interdisciplinary study provides a comprehensive look at the adaptations and environments of

the late Ice Age Paleoindian hunters who killed a large herd of bison at this spot as well as a measure of Folsom's pivotal role in American archaeology **Bookseller and the Stationery Trades' Journal** ,1889 The Publisher ,1902
