The Nature of the Early Ottoman State Heath W. Lowry, 2003-03-17 A revisionist interpretation of the early origins of the Ottoman Empire

The Nature of the Early Ottoman State Heath W. Lowry, 2012-02-01 Drawing on surviving documents from the fourteenth and fifteenth centuries *The Nature of the Early Ottoman State* provides a revisionist approach to the study of the formative years of the Ottoman Empire Challenging the predominant view that a desire to spread Islam accounted for Ottoman success during the fourteenth century advance into Southeastern Europe Lowry argues that the primary motivation was a desire for booty and slaves The early Ottomans were a plundering confederacy open to anyone Muslim or Christian who could meaningfully contribute to this goal It was this lack of a strict religious orthodoxy and a willingness to preserve local customs and practices that allowed the Ottomans to gain and maintain support Later accounts were written to buttress what had become the self image of the dynasty following its incorporation of the heartland of the Islamic world in the sixteenth century

Applying Ibn Khaldūn Syed Farid Alatas, 2014-06-05 The writings of Ibn Khaldūn particularly the *Muqaddimah* Prolegomenon have rightly been regarded as being sociological in nature For this reason Ibn Khaldūn has been widely regarded as the founder of sociology or at least a precursor of modern sociology While he was given this recognition however few works went beyond proclaiming him as a founder or precursor to the systematic application of his theoretical perspective to specific historical and contemporary aspects of Muslim societies in North Africa and the Middle East The continuing presence of Eurocentrism in the social sciences has not helped in this regard it often stands in the way of the consideration of non Western sources of theories and concepts This book provides an overview of Ibn Khaldūn and his sociology discusses reasons for his marginality and suggests ways to bring Ibn Khaldūn into the mainstream through the systematic application of his theory It moves beyond works that simply state that Ibn Khaldūn was a founder of sociology or provide descriptive accounts of his works Instead it systematically applies Khaldūn's theoretical perspective to specific historical aspects of Muslim societies in North Africa and the Middle East successfully integrating concepts and frameworks from Khaldūnian sociology into modern social science theories Applying Ibn Khaldūn will be of interest to students and scholars of sociology and social theory

Trajectories of State Formation across Fifteenth-Century Islamic West-Asia Jo Van Steenbergen, 2020-06-15 The concept practice institution and appearance of the state have been hotly debated ever since the emergence of history as a discipline within modern scholarship The field of medieval Islamic history however has remained aloof from most of these debates Rather it tends to take for granted the particularity of dynastic trajectories within slow changing bureaucratic contexts Trajectories of State Formation promotes a more critical and connected understanding of state formation in the late medieval Sultanates of Cairo and of the Timurid Turkmen and Ottoman dynasties Projecting seven case studies onto a broad canvas of European and West Asian research this volume presents a trans dynastic reconstruction interpretation and illustration of statist trajectories across fifteenth century Islamic West Asia The contributors are Georg Christ Kristof D hulster Jan Dumolyn Albrecht Fuess Dimitri J Kastritsis Beatrice Forbes Manz John L Meloy Jo Van Steenbergen and Patrick Wing
