Adams, 2014-05-01 Nature conservation has become increasingly important in Britain over the last three decades This title first published in 1986 deals with the critical issues surrounding nature conservation and wildlife protection The book is broad in scope with a focus on the 1981 Wildlife and Countryside Act and its provisions for the protection of wildlife habitats in Sites of Special Scientific Interest SSSIs This follows an historical account of habitat loss over the past 200 years and the origins of conservation and site protection policy This reissue will be of particular value to professionals voluntary workers and students with an interest in the origins developments and practice of nature conservation **Nature, Place & People:**

Forging Connections Through Neighbourhood Landscape Design Puay-yok Tan, Kuei-hsien Liao, Yun Hye Hwang, Vincent Chua, 2018-04-23 Neighbourhood landscapes are the quintessential forms of urban landscapes in most cities worldwide They are pervasive and hence experienced by the large majority of urban dwellers in their everyday life More than parks nature reserves or nature areas which are visited as destinations neighbourhood landscapes provide the most immediate frequent and convenient form of nature experienced by urban dwellers on a daily basis They are also valuable as social spaces to bring residents together foster social ties and strengthen communities Despite their importance surprisingly little has been written to guide the planning and design of neighbourhood landscapes This book is written for a specific purpose to illustrate how the design of neighbourhood landscapes helps to deliver more benefits for urban dwellers and at the same time protect ecosystems that facilitate human well being This is in turn important as the synergistic relationships between human well being quality of biophysical urban environment and health of human environment interactions fundamentally underpin urban sustainability The authors emphasize the role neighbourhood landscapes play in forging connections between people and nature people and people and place Most of all the book highlights the role of focusing on people in this endeavour as it is only when landscapes are appropriately designed and when people recognize these benefits that they become valued and protected as a community resource This book is organized into two parts Part 1 focuses on the conceptual foundations that underpin the neighbourhood landscape design guidelines being developed In this section the authors describe the key concepts relating functions of neighbourhood landscapes to the key urban development goals of sustainability liveability and reliance how they can be represented in a framework and how a synthesis of current knowledge of cities as socio ecological systems helps to identify principles that can guide the designing of neighbourhood landscapes Part 2 is more application focused and is centred on neighbourhood landscape design guidelines inspired by the concept of ecosystem services The guidelines consist of design approaches practical strategies design targets and performance monitoring indicators for tracking the performance of neighbourhood landscapes The book is written for

readers in academia and design practice and anyone who has a role in shaping neighbourhood landscapes for the benefit of urban dwellers **Organic Philosophy; Or, Man's True Place in Nature ...** Hugh Doherty,1864 Organic Philosophy; Or, Man's True Place in Nature by Hugh Doherty ,1864 Nature, place and spirit John Campbell Gardiner,2014

Nature, Space and the Sacred S. Bergmann,H. Bedford-Strohm,2016-12-05 Nature Space and the Sacred offers the first investigative mapping of a new and highly significant agenda the spatial interactions between religion nature and culture In this ground breaking work different concepts of religion theology space and place and their internal relations are discussed in an impressive range of approaches Weaving together a diversity of perspectives this book presents an innovative and truly transdisciplinary environmental science Its broad range offers a rich exchange of insights methods and theoretical engagements **Tree Cultures** Paul Cloke,Owain Jones,2020-07-12 The relationship between nature and culture has become a popular focus in social science but there have been few grounded accounts of trees Providing shelter fuel food and tools trees have played a vital role in human life from the earliest times but their role in symbolic expression has been largely overlooked For example trees are often used to express nationalistic feelings Germans drew heavily on tree and forest imagery in nation building and the idea of hearts of oak has been central to concepts of English identity Classic scenes of ghoulish trees coming to life and forests closing in on unsuspecting passers by commonly feature in the media In other instances trees are used to represent paradisaical landscapes and symbolize the ideologies of conservation and concern for nature Offering new theoretical ideas this book looks at trees as agents that co constitute places and cultures in relationship with human agency What happens when trees connect with human labour technology retail and consumption systems What are the ethical dimensions of these connections The authors discuss how trees can affect and even define notions of place and the ways that particular places are recognized culturally Working trees companion trees wild trees and collected or conserved trees are considered in relation to the dynamic politics of conservation and development that affect the values given to trees in the contemporary world Building on the growing field of landscape study this book offers rich insights into the symbolic and practical roles of trees It will be vital reading for anyone interested in the anthropology of landscape forestry conservation and development and for those concerned with the social science of nature Places and Politics in an Age of Globalization Roxann Prazniak,Arif Dirlik,2001-02-07 This ambitious work provides a unique statement on the question of place based activism and its relationship to powerful forces of international capital Arguing that specific places around the world are sites for the defense and enhancement of daily life in the context of rapidly expanding global technologies and investment options the contributors reach for a vision of social development that supports sustainable humane cultures Bringing together the local and the global this work provides the first sustained linkage of ethnic groups in diaspora to macrocosmic processes of world capital that inevitably reach down to mediate even the most local experiences The essays ranging in their discussion of place from Los Angeles and New York to New Zealand and Indonesia offer both

reasoned argument and authoritative information on how local experience interacts with larger processes of global capital and the diasporic phenomenon The book will be an invaluable resource and launching point for scholars and students in ethnic and identity studies and will interest all readers exploring the production of place and identification **The Selborne Magazine and "Nature Notes,"** 1909
