Reconnecting Aestheticism and Modernism Bénédicte Coste, Catherine Delyfer, Christine Reynier, 2016-10-04 Charting the period that extends from the 1860s to the 1940s this volume offers fresh perspectives on Aestheticism and Modernism By acknowledging that both movements had a passion for the new it goes beyond the alleged divide between Modernism and its predecessors Rather than reading the modernist credo Make it New as a desire to break away from the past the authors of this book suggest reading it as a continuation and a reappropriation of the spirit of the New that characterizes Aestheticism Basing their arguments on recent reassessments of Aestheticism and Modernism and their articulation contributors take up the challenge of interrogating the connections continuities and intersections between the two movements thus revealing the working processes of cultural and aesthetic change so as to reassess the value of the new for each Attending to well known writers such as Waugh Woolf Richardson Eliot Pound Ford Symons Wilde and Hopkins as well as to hitherto neglected figures such as Lucas Malet L S Gibbon Leonard Woolf or George Egerton they revise assumptions about Aestheticism and Modernism and their very definitions This collection brings together international scholars specializing in Aestheticism or Modernism who push their analyses beyond their strict period of expertise and take both movements into account through exciting approaches that borrow from aesthetics philosophy or economics The volume proposes a corrective to the traditional narratives of the history of Aestheticism and Modernism revitalizing definitions of these movements and revealing new directions in aestheticist and modernist studies

Nature, Aesthetics, and Environmentalism Allen Carlson, Sheila Lintott, 2008. *Nature Aesthetics and Environmentalism: From Beauty to Duty* addresses the complex relationships between aesthetic appreciation and environmental issues and emphasizes the valuable contribution that environmental aesthetics can make to environmentalism. Allen Carlson, a pioneer in environmental aesthetics, and Sheila Lintott, who has published widely in aesthetics, combine important historical essays on the appreciation of nature with the best contemporary research in the field. They begin with the scientific, artistic, and aesthetic foundations of current environmental beliefs and attitudes. Then they offer views on the conceptualization of nature and the various debates on how to properly and respectfully appreciate nature. The book introduces positive aesthetics, the belief that everything in nature is essentially beautiful, even the devastation caused by earthquakes or floods, and the essays in the final section explicitly bring together aesthetics, ethics, and environmentalism to explore the ways in which each might affect the others.

How Art Made the World Nigel

Spivey, 2006-11-27 In the late nineteenth century the first discoveries of prehistoric painting were greeted with incredulity. How could there have been such deft and skillful artists in the world over 30 000 years ago? Noted art historian Nigel Spivey begins with this puzzle to explore the record of humanity's artistic endeavors and their impact on our own development. How Art Made the World in conjunction with the PBS miniseries reveals how artists from the earliest caveman to the most studied Renaissance master have grappled with the same questions in their work: What is a man? Why must we die? Is there a God? With the help of vivid color illustrations of some of the world's most moving and enduring works of art, Spivey shows how that art has been used as a means of mass persuasion essential to the creation of hierarchical societies and finally the extent to which art has served as a mode of terror management in the face of our inevitable death. Packed with new insights into ancient wonders and fascinating stories from all around the globe, How Art Made the World is a compelling account of how humans made art and how art makes us human.
