Hessel,2003-03-27 Living with the consequences of modern Western abuse of the environment has alerted many to the need to change not simply their habits but also their worldview A true faith centered eco justice ethic assert the contributors to this volume will recognize the intrinsic links between social justice questions and environmental ones It will also demand reassessment of fundamental assumptions many of them from Christian theology that stand behind Western social economic and technological patterns Introduced by Hessel s illuminating assessment of specific environmental challenges the theologians in this volume rethink aspects of Christian doctrines lifestyle and spirituality They tackle key environmental issues And together they pioneer a theological perspective that moves beyond anthropocentrism to a new center in creation itself **Scientific Theology: Nature** Alister E. McGrath,2007-01-23 A Scientific Theology is a groundbreaking work of systematic theology in three volumes Nature Reality and Theory Now available as a three volume set **Development and Justice** Rajula Annie Watson,2004 Restoring the health of the land is indispensable not only because it is the ground of our sustenance and survival but also land has in itself the inherent worth This book challenges humanity s indulgence and activities of development science and technology and insists for human responsibility and moral duties towards the land the sustaining mother earth which is abused ransacked of its wealth and ignored of its intrinsic value The study attempts to bring together perspectives and values that are important for preserving the rights of the land and proposes the contour of a land ethic *Celebrating Nature by Faith* H. Paul Santmire,2020-09-09 Sometimes it is helpful to take one step backward in order to take two steps forward In this insightful volume H Paul Santmire draws on his long standing and widely recognized engagement with ecological theology to propose that the traditions of the Protestant Reformation rightly read offer rich resources today for those who are struggling to move forward to respond theologically to the crisis of a planet in peril and thereby to celebrate nature by faith **Nature Reborn** H. Paul Santmire, Santmire s much acclaimed *The Travail of Nature The Ambiguous Ecological Promise of Christian Theology* documented the unfortunate legacy of many Christian theological notions in the use abuse and destruction of the natural world along with its positive aspects This new brief but penetrating look at Christian theological concepts of nature returns to the fray this time to reclaim classic mostly pre modern Christian themes and re envision them in light of the global environmental and cultural crisis This revisionist work to revise the classical Christian story in order to identify and to celebrate its ecological and cosmic promise mines Christian cosmology the Great Chain of Being Christology Creation and Eucharist so that the Christian story can be then rediscovered history reshaped theology re experienced spirituality and re enacted ritual *This Sacred Earth* Roger S. theological selections Historical and contemporary selections from key authors and a multicultural range of sources make This Sacred Earth an invaluable teaching resource and a unique introduction to the theory and practice of religious environmentalism *The Travail of Nature* H. Paul Santmire, 1985-01-01 The Travail of Nature shows that the theological tradition in the West is neither ecologically bankrupt as some of its popular and scholarly critics have maintained nor replete with immediately accessible albeit long forgotten ecological riches hidden everywhere in its deeper vaults as some contemporary Christians who are profoundly troubled by the environmental crisis and other related concerns might wistfully hope to find This is why it is appropriate to speak of the ambiguous ecological promises of Christian theology
