Towards the Nature Is Going Towards the Health Shaman Melodie McBride, Dr. Ashutosh, Dr. Anagha Yardi, 2017-06-23

Science knows that there are two types of feather—the ones with the rachis stem in the center and the ones that have the rachis off center. The difference is that the off-center stems are only grown by the birds that can fly. In addition to the stem being off-center, the individual barbs in the vanes are interlocking. This is why our last book in the series *Going Towards the Nature Is Going Towards the Health* is entitled *Feather by Feather*. The reader will now attain knowledge to overcome the challenges that lead towards disease and see the bigger picture in climbing to the highest stages of health. In other words, happiness. Because health is happiness. Shaman Melodie McBride *Nature* Sir Norman Lockyer, 1902 **Wonders of the**
