lives To do this we need to be aware praise accept and love If someone divides or subtracts themself from Her intimate ultimate nature that is what makes them react to not go entirely with the flow of her innate wisdom These poems were written to remind and encourage others to be grateful thankful and praiseful of Mother Nature s gifts of inspiration I found fun in the writing of this collection of poems and gained deep introspection captured in my attempt to lend personality to Her wonders

Nature's Sublime Robert S. Corrington,2013-03-14 Nature s Sublime uses a radical new form of phenomenology to probe into the deepest traits of the human process in its individual social religious and aesthetic dimensions Starting with the selving process the essay describes the role of signs and symbols in intra and interpersonal communication At the heart of the human use of signs is a creative tension between religious symbols and the novel symbols created in the various arts A contrast is made between natural communities which flatten out and reject novel forms of semiosis and communities of interpretation which welcomes creative and enriched signs and symbols The normative claim is made that religious sign symbol systems have a tendency toward tribalism and violence while the various spheres of the aesthetic are comparatively non tribal or even deliberately anti tribal The concept experience of beauty and the sublime is meant to replace that of religious revelation The sublime is not merely an internal mode of attunement contra Kant but comes from the very depths of nature in the potencies of nature naturing
