Nautical Quarterly 29 Spring 1985:

Nautical Quarterly ,1988 **Maine Lobster Boat** Daniel Sheldon Lee,2022-09-15 The modern lobster boat has evolved slowly over decades to become the craft it is today seaworthy strong fast and trusted implicitly by the lobstermen and women to get the job done and get them home each and every time through the most terrifying and sometimes life threatening conditions that the sea can dish up Where do lobster boats come from What is the origin of their design Who builds them How do they work The story of the Maine lobster boat needs to be told before the storied history of this iconic American craft slips away forever into the past on the heels of what may be the last surviving traditional lobster boat builders Filled with colorful characters old maritime tales and fascinating details this a definitive look at the origins and lore of Maine s most ubiquitous vessel **The Woodenboat** ,2000 The Timberclads in the Civil War Myron J. Smith, Jr.,2008-10-07 In the most detailed history ever of Union warships on the western waters of the Civil War the author recounts the exploits of the timberclad ships Lexington Tyler and Conestoga Converted to warships from commercial steamboats at the beginning of the conflict the three formed the core of the North s Western Flotilla later the Mississippi Squadron The book focuses on the activities of these wooden warriors while providing context for the greater war including accounts of their famous commanders their roles in both large and small battles ship to ship combat and support for the armies of Gen U S Grant and Gen William T Sherman **Sea of Glory** Nathaniel Philbrick,2004-10-26 A treasure of a book David McCullough The harrowing story of a pathbreaking naval expedition that set out to map the entire Pacific Ocean dwarfing Lewis and Clark with its discoveries from the New York Times bestselling author of Valiant Ambition and In the Hurricane s Eye A New York Times Notable Book America s first frontier was not the West it was the sea and no one writes more eloquently about that watery wilderness than Nathaniel Philbrick In his bestselling In the Heart of the Sea Philbrick probed the nightmarish dangers of the vast Pacific Now in an epic sea adventure he writes about one of the most ambitious voyages of discovery the Western world has ever seen the U S Exploring Expedition of 1838 1842 On a scale that dwarfed the journey of Lewis and Clark six magnificent sailing vessels and a crew of hundreds set out to map the entire Pacific Ocean and ended up naming the newly discovered continent of Antarctica collecting what would become the basis of the Smithsonian Institution Combining spellbinding human drama and meticulous research Philbrick reconstructs the dark saga of the voyage to show why instead of being celebrated and revered as that of Lewis and Clark it has until now been relegated to a footnote in the national memory Winner of the Theodore and Franklin D Roosevelt Naval History Prize *The USS Carondelet* Myron J. Smith, Jr.,2010-04-13 The USS Carondelet had a revolutionary ship design and was the most active of all the Union s Civil War river ironclads From Fort Henry through the siege of Vicksburg and from the Red River campaign through the Battle of Nashville the gunboat was prominent in war legend and literature This history draws on the letters of Ensign Scott Dyer Jordan and Rear Adm Henry Walke s memoirs **The Legend of Chris-Craft** Jeffrey L. Cultures in Contact Joan Aruz, Sarah B. Graff, Yelena Rakic, 2013 The exhibition Beyond Babylon Art Trade and Diplomacy in the Second Millennium B C held in 2008 2009 at The Metropolitan Museum of Art demonstrated the cultural enrichment that emerged from the intensive interaction of civilizations from western Asia to Egypt and the Aegean in the Middle and Late Bronze Ages During this critical period in human history powerful kingdoms and large territorial states were formed Rising social elites created a demand for copper and tin as well as for precious gold and silver and exotic materials such as lapis lazuli and ivory to create elite objects fashioned in styles that reflected contacts with foreign lands This quest for metals along with the desire for foreign textiles was the driving force that led to the establishment of merchant colonies and a vast trading network throughout central Anatolia during the early second millennium B C Texts from palaces at sites from Hattusa modern Bogazk y in Hittite Anatolia to Amarna in Egypt attest to the volume and variety of interactions that took place some centuries later creating the impetus for the circulation of precious goods stimulating the exchange of ideas and inspiring artistic creativity Perhaps the most dramatic evidence for these far flung connections emerges out of tragedy the wreckage of the oldest known seagoing ship discovered in a treacherous stretch off the southern coast of Turkey near the promontory known as Uluburun Among its extraordinary cargo of copper glass and exotic raw materials and luxury goods is a gilded bronze statuette of a goddess perhaps the patron deity on board who failed in her mission to protect the ship To explore the themes of the exhibition art trade and diplomacy viewed from an international perspective a two day symposium and related scholarly events allowed colleagues to explore many facets of the multicultural societies that developed in the second millennium B C Their insights which dramatically illustrate the incipient phases of our intensely interactive world are presented largely in symposium order beginning with broad regional overviews and examination of particular archeological contexts and then drawing attention to specific artists and literary evidence for interconnections In this introduction however their contributions are viewed from a somewhat more synthetic perspective one that focuses attention on the ways in which ideas in this volume intersect to enrich the ongoing discourse on the themes elucidated in the exhibition *Air University Quarterly Review* ,1987

Coastal Shrines and Transnational Maritime Networks across India and Southeast Asia Himanshu Prabha Ray, 2020-07-26 This book breaks new ground by examining trans oceanic connectivity through the perspective of coastal shrines and maritime cultural landscapes across the Bay of Bengal and the South China Sea It covers a period of expanding networks and cross cultural encounters from the 3rd century BCE to the 13th century CE The book

examines the distinctiveness of these shrines and highlights their interconnections and their role in social integration in South and Southeast Asia By drawing on data from shipwreck sites the author elaborates on the material and religious intersections and transmissions between cultures across the seas Many of these coastal shrines survived into the colonial period when they came to be admired for their aesthetic value as monuments As nation states of the region became independent these shrines were often inscribed on UNESCO s World Heritage List on account of their Outstanding Universal Values The book argues that in the 21st century there is a need to promote the cultural connectivity of the past as transnational heritage on UNESCO s global platform to preserve and protect our shared heritage The volume will be essential reading for academics and researchers of archaeology anthropology museum and heritage studies history of South and Southeast Asia religious studies cultural studies and Asian studies
