own ways of knowing and being in the world a cultural identity linked to their homelands through ancestral memory The Earth Memory Compass traces this tradition as it is imparted from generation to generation and as it has been transformed and often obscured by modern modes of education An autoethnography of sorts the book follows Farina King s search for her own Din identity as she investigates the interconnections among Navajo students their people and Din Bik yah or Navajo lands across the twentieth century In her exploration of how historical changes in education have reshaped Din identity and community King draws on the insights of ethnohistory cultural history and Navajo language At the center of her study is the Din idea of the Four Directions in which each of the cardinal directions takes its meaning from a sacred mountain and its accompanying element East for instance is Sis Naajin Blanca Peak and white shell West Dook o oos d San Francisco Peaks and abalone North Dib Nitsaa Hesperus Peak and black jet South Tsoodzi Mount Taylor and turquoise King elaborates on the meanings and teachings of the mountains and directions throughout her book to illuminate how Navajos have embedded memories in landmarks to serve as a compass for their people a compass threatened by the dislocation and disconnection of Din students from their land communities and Navajo ways of learning Critical to this story is how inextricably Indigenous education and experience is intertwined with American dynamics of power and history As environmental catastrophes and struggles over resources sever the connections among peoplehood land and water King s book holds out hope that the teachings guidance and knowledge of an earth memory compass still have the power to bring the people and the earth together **The Navajo** United States. Land Navajo Culture Robert S McPherson presents an intimate history of the Din or Navajo people of southeastern Utah Moving beyond standard history by incorporating Native voices the author shows how the Dine s culture and economy have

both persisted and changed during the twentieth century As the dominant white culture increasingly affected their worldview these Navajos adjusted to change took what they perceived as beneficial and shaped or filtered outside influences to preserve traditional values With guidance from Navajo elders McPherson describes varied experiences ranging from traditional deer hunting to livestock reduction from bartering at a trading post to acting in John Ford movies and from the coming of the automobile to the burgeoning of the tourist industry Clearly written and richly detailed this book offers new perspectives on a people who have adapted to new conditions while shaping their own destiny
