Computerized Adaptive Testing Simulation

Simulated computerized adaptive testing (CAT) allows you to practice in an exam-like environment. When you take the CAT, the system will select optimal questions based on your previous responses. At the end of the test, you will be able to see your test performance, your level of preparedness, and the difficulty factor of the questions you answered.

CAT vs. Self-Assessment:

- CAT results give valuable insights into your preparation. Your results will let you know if your strategies are on the right track or need improvement.
- If you want to gauge your readiness, take a Self-Assessment for individual content areas.

Your test includes the following:

- You may only take a CAT test once.
- CAT tests have a 5-hour time limit.
- Once a question is completed, it cannot be returned to.
- Your test will run for a minimum of 20 questions.
