Ouverture Arte Contemporanea:

Mario Merz: The Monograph Mario Merz, Pier Giovanni Castagnoli, Beatrice Merz, 2006 Mario Merz the late great proponent of Arte Povera envisioned the contemporary artist as a nomad ever mediating and meditating on the relationship between nature and culture He began to make work after his arrest in 1945 for anti fascist activities confined to jail he drew incessantly on whatever material he could find After his release he painted first in oil on canvas then began to pierce the canvas as well as objects such as bottles umbrellas and raincoats with neon tubes symbolically infusing them with energy In 1968 Merz adopted one of his signature motifs the igloo symbol of the transitory artist At base a metal skeleton the igloo could be covered with site specific fragments of clay wax mud glass burlap or bundles of branches and decorated with political or literary phrases in neon tubing Merz s iconography later came to incorporate the Fibonacci formula of mathematical progression 1 2 3 5 8 13 21 34 stacked newspapers archetypal animals motorcycles and the table symbol of the human need for fulfillment and interaction This posthumous monograph is the most complete publication on the artist It includes documentation of his entire artistic production including paintings sculptures installations drawings neon and Fibonacci series work plus many previously unpublished materials With a comprehensive history of Merz s career a bibliography a biographic chronology and critical essays it offers a deep and deserving reflection of the artist and his significant role in twentieth century art Arnulf Rainer Arnulf Rainer, 2000 *Alighiero E Boetti* Alighiero Boetti, Norman Rosenthal, Louise Neri, Gagosian Gallery, 2001 The exhibition is composed of examples from some of the artist s most important series including Camouflage canvases from the 1960s Alternating 1 to 100 and Vice Versa Kilims from the 1990s and the well known Maps from 1971 1992 These works feature Boetti s signature use of textiles as his medium including various woven wool pieces as well as embroidery The show will also include two significant self portrait sculptures one from the beginning of his career Me Sunbathing in Turin on 19 January 1969 and another from the end Self Portrait 1993 *The Museums of Contemporary Art* J. Pedro Lorente, 2016-03-03 Where how by whom and for what were the first museums of contemporary art created These are the key questions addressed by J Pedro Lorente in this new book In it he explores the concept and history of museums of contemporary art and the shifting ways in which they have been imagined and presented Following an introduction that sets out the historiography and considering questions of terminology the first part of the book then examines the paradigm of the Musée des Artistes Vivants in Paris and its equivalents in the rest of Europe during the nineteenth century The second part takes the story forward from 1930 to the present presenting New York s Museum of Modern Art as a new universal role model that found emulators or contramodels in the rest of the Western world during the twentieth century An epilogue reviews recent museum developments in the last decades Through its adoption of a long term worldwide perspective the book not only provides a narrative of the development of museums of contemporary art but also sets this into its international perspective By assessing the extent to which the great museum capitals Paris London and New

York in particular created their own models of museum provision as well as acknowledging the influence of such models elsewhere the book uncovers fascinating perspectives on the practice of museum provision and reveals how present cultural planning initiatives have often been shaped by historical uses

Management Alessia Zorloni, 2016-08-19 This book offers an overview of how to manage private art collections providing essential insights on art wealth management art investment art governance and succession planning for art assets. It offers practical recommendations on sound art collection governance but also examines the background of art markets and price building including the influence of fashion and trends. Throughout history art patronage has played an important role in the wealth of ultra high net worth families and led to private museums funded by philanthropist collectors in order to celebrate their own tastes and leave a lasting legacy. Today as a result of the growth of art investing by a new generation of wealthy collectors not only artists but also wealthy families sophisticated investors and their close advisors now face a more complex set of financial and managerial needs. As such the contributions in this book will be of interest to collecting families family offices and professional advisors seeking to integrate art into their overall wealth management strategy and to scholars in the fields of cultural economics art dealers curators and art lovers.

Die Rezeption der Antike in der Postmoderne

Michaela Unterdörfer, 1998-01-01 Seit den späten sechziger Jahren verarbeiten einige italienische Künstler Giulio Paolini Claudio Parmiggiani Michelangelo Pistoletto Vettor Pisani und der Grieche Jannis Kounellis Gipskopien klassischer Skulpturen in Montagen und Installationen. Die rezeptionsgeschichtliche Studie untersucht ausgehend von der Identifizierung und Form und stilgeschichtlichen Einordnung der Bezugswerke deren Rolle im neuen künstlerischen Kontext und fragt nach der Relevanz des antiken Erbes in der zweiten Moderne. Historische Abrisse zur Wertschätzung der Kopie und zur wechsellvollen Geschichte der Antikenrezeption stellen Modi der Interpretation zur Verfügung, durch die diese erneute Rezeption der Antike als Teil des Paradigmenwechsels der Moderne und als programmatisches Zurückgreifen hinter die historische Avantgarde begriffen werden kann. Während postmoderner Kunst häufig Eklektizismus und Beliebigkeit im Umgang mit den zitierten Vorlagen unterstellt wird, verdeutlichen exemplarische Werkanalysen neben einem Überblick über die Zitierweise in der Kunst des 20. Jahrhunderts den herausgehobenen Platz der Italiener. Werkverzeichnisse der besprochenen Künstler und ein ausführlicher Vorlagenkatalog stellen die unabdingbare Basis für jede Beschäftigung mit dem Antikenzitat in der Postmoderne dar. Diss. Nürnberg 1998.
