Early Manuscripts and Modern Translations of the New Testament Philip Wesley Comfort, 2001-12-17 Although valuable for their early witness to the text of the Greek New Testament the influence of the papyri on Bible translations in this century has largely gone unnoticed *Early Manuscripts Modern Translations of the New Testament* redresses this failure by providing a detailed profile of nearly 70 major New Testament papyri and assessing their effect on modern English Bible translations A five page bibliography on textual criticism and fourteen photos of ancient papyrus manuscripts round out this fascinating study

The Spartan Scytale and Developments in Ancient and Modern Cryptography Martine Diepenbroek, 2023-11-16 This book offers a comprehensive review and reassessment of the classical sources describing the cryptographic Spartan device known as the scytale Challenging the view promoted by modern historians of cryptography which look at the scytale as a simple and impractical stick Diepenbroek argues for the scytale's deserved status as a vehicle for secret communication in the ancient world By way of comparison Diepenbroek demonstrates that the cryptographic principles employed in the Spartan scytale show an encryption and coding system that is no less complex than some 20th century transposition ciphers The result is that contrary to the accepted point of view scytale encryption is as complex and secure as other known ancient ciphers Drawing on salient comparisons with a selection of modern transposition ciphers and their historical predecessors the reader is provided with a detailed overview and analysis of the surviving classical sources that similarly reveal the potential of the scytale as an actual cryptographic and steganographic tool in ancient Sparta in order to illustrate the relative sophistication of the Spartan scytale as a practical device for secret communication This helps to establish the conceptual basis that the scytale would in theory have offered its ancient users a secure method for secret communication over long distances
