Bonner, Estill Curtis Pennington, Charles Reagan Wilson, 2013-01-14 From the Potomac to the Gulf artists were creating in the South even before it was recognized as a region The South has contributed to America's cultural heritage with works as diverse as Benjamin Henry Latrobe's architectural plans for the nation's Capitol the wares of the Newcomb Pottery and Richard Clague's tonalist Louisiana bayou scenes This comprehensive volume shows how through the decades and centuries the art of the South expanded from mimetic portraiture to sophisticated responses to national and international movements The essays treat historic and current trends in the visual arts and architecture major collections and institutions and biographies of artists themselves As leading experts on the region's artists and their work editors Judith H Bonner and Estill Curtis Pennington frame the volume's contributions with insightful overview essays on the visual arts and architecture in the American South *A Companion to the American South* John B. Caldwell, 2001 Their songs insist that the arrival of the railroad and the appearance of the tiny depot often created such hope that it inspired the construction of the architectural extravaganzas that were the courthouses of the era In these buildings the distorted myth of the Old South collided head on with the equally deformed myth of the New South 306090 ,2001 [The Prison of Democracy](#) Sara M. Benson, 2019-04-16 At publication date a free ebook version of this title will be available through Luminos University of California Press's Open Access publishing program Visit www.luminosoa.org to learn more Built in the 1890s at the center of the nation Leavenworth Federal Penitentiary was designed specifically to be a replica of the US Capitol Building But why The Prison of Democracy explains the political significance of a prison built to mimic one of America's monuments to democracy Locating Leavenworth in memory history and law the prison geographically sits at the borders of Indian Territory 1825 1854 and Bleeding Kansas 1854 1864 both sites of contestation over slavery and freedom Author Sara M Benson argues that

Leavenworth reshaped the design of punishment in America by gradually normalizing state inflicted violence against citizens Leavenworth's peculiar architecture illustrates the real roots of mass incarceration as an explicitly race and nation building system that has been ingrained in the very fabric of US history rather than as part of a recent post war racial history The book sheds light on the truth of the painful relationship between the carceral state and democracy in the US a relationship that thrives to this day *Southern Architecture* Kenneth Severens, 1981 350 years of distinctive American buildings
