Reviving Primary Care John Fry, Donald Light, Jonathan Rodrick, Peter Orton, 2018-05-08 The quality of health care in the US depends on the patient s ability to pay and his or her insurance cover at an annual cost of 3600 per head of population In the UK the quality of care costs less at an annual cost of 1000 per head of population although care is sometimes delayed through a lack of resources This book compares the two systems from the viewpoint of primary care identifying some models of excellence from which both can benefit It draws on the experience of the NHS reforms in the UK and the political imperative to control costs and improve the service in the US

Treating Children's Psychosocial Problems in Primary Care Beth Wildman, Tracy Stancin, 2006-05-01 The Forum that led to this volume was the thirteenth in an on going annual series sponsored by the Applied Psychology Center APC at Kent State University The resources and programs of the APC allowed for the prominent clinicians and scholars to attend the meeting and interact informally in the picturesque and relaxing atmosphere of the Inn at Honey Run in the heart of the Amish area of Northeast Ohio This environment nurtured interaction among the participants for three days and permitted all to leave the Forum with ideas well

beyond those presented in the text We are grateful to the APC for facilitating this endeavor The editors would especially like to acknowledge the on going contribution of Kathy Floody without whose help neither the Forum nor this book would exist Kathy arranged for every detail of the Forum from transportation plans rooms food and drink to scheduling of papers discussions and tours of the local area Kathy compulsively reviewed all chapters for references errors and oversights and maintained a positive disposition and encouraging demeanor throughout the process The success of the Forum was as much Kathy s doing as it was the responsibility of the scholars who participated
