medium s history and evolving identity In *Each Wild Idea* Geoffrey Batchen explores a wide range of photographic subjects from the timing of the medium s invention to the various implications of cyberculture Along the way he reflects on contemporary art photography the role of the vernacular in photography s history and the Australianness of Australian photography The essays all focus on a consideration of specific photographs from a humble combination of baby photos and bronzed booties to a masterwork by Alfred Stieglitz Although Batchen views each photograph within the context of broader social and political forces he also engages its own distinctive formal attributes In short he sees photography as something that is simultaneously material and cultural In an effort to evoke the lived experience of history he frequently relies on sheer description as the mode of analysis insisting that we look right at rather than beyond the photograph being discussed A constant theme throughout the book is the question of photography s past present and future identity *Max Dupain* Max Dupain, **Useless Beauty** Ann Elias,2015-10-05 The story of Australian art does not begin and end with landscape This book puts flowers front and centre because they have often been ignored in preference for more masculine themes Departing from where studies of single flower artists leave off *Useless Beauty* embraces the general topic of flowers in Australian art and shines new light on a slice of Australian art history that extends from 1880 to 1950 It is the first book of broad chronology to discuss Australian art through blossoms which it does by addressing stories of major figures including Hans Heysen Margaret Preston and Sidney Nolan as well as specific objects such as surreal flowers Aboriginal flowers and war flowers Whether modern or conservative the artists in this study shared an intellectual and emotional passion for flora This was true for men as well as women despite blossoms being a more traditionally feminine subject Through spectacular reproductions of historical and contemporary artworks drawn from collections in Australia the United States Britain and New Zealand *Useless Beauty* explores how flowers influenced the psyche governed rituals defined identity and brought a psychological dimension to the everyday The peak years for flower centricity in Australian art were between 1920 and 1940 when flowers were known as the apotheosis of useless beauty *Speaking of Us* Barry York,1999 Echoes from the earliest years of the century mingle with the voices of contemporary Australia in this fascinating selection of excerpts from the Oral History Collection of the National Library of Australia Humour and drama sport culture politics and the media work and leisure are all represented There are stories of life from remote properties there are comments on society and government policies there are anecdotes and opinions *Photography Production and Appreciation* Sandra Jane,2010-01-08 The second edition of *Photography Production and Appreciation* provides a comprehensive up to date resource for Years 7 10 students in
