Reference and Information Services Richard E. Bopp, Linda C. Smith, 2011-05-23 Reflecting the dramatic changes shaped by rapidly developing technologies over the past six years this new fourth edition of *Reference and Information Services* takes the introduction to reference sources and services significantly beyond the content of the first three editions In Part I Concepts and Processes chapters have been revised and updated to reflect new ideas and methods in the provision of reference service in an era when many users have access to the Web In Part II Information Sources and Their Use discussion of each source type has been updated to encompass key resources in print and on the Web where an increasing number of freely available sources join those purchased or licensed by libraries A number of new authors are contributors to this new edition bringing to their chapters their experience as teachers of reference and as practitioners in different types of libraries Discussions of services in Part I integrate digital reference as appropriate to each topic such as how to conduct a reference interview online using instant messaging Boxes interspersed in the text are used to present scenarios for discussion to highlight key concepts or to present excerpts from important documents Discussions of sources in Part II place more emphasis on designing effective search strategies using both print and digital resources The chapter on selection and evaluation of sources addresses the changing nature of reference collections and how to evaluate new types of sources Each chapter concludes with an updated list of additional readings to guide further study A new companion website will provide links to Web accessible readings and resources as well as additional scenarios for discussion and example search strategies to supplement those presented in the text Implementation and Application of the Explicitly Correlated Coupled-cluster

Method in Turbomole Rafal A. Bachorz, 2009 In this thesis the implementation of the explicitly correlated coupled cluster singles and doubles model is presented This tool is capable of efficiently calculating CCSD energies at the basis set limit with relatively small orbital basis sets The implementation supports RHF UHF and ROHF reference wave functions The usefulness of the developed tool is illustrated with selected chemical applications *Cold Region Atmospheric and Hydrologic Studies. The Mackenzie GEWEX Experience* Ming-ko Woo, 2008-01-08 This book presents decade long advances in atmospheric research in the Mackenzie River Basin in northern Canada which encompasses environments representative of the coldest areas on Earth Collaborative efforts by a team of about 100 scientists and engineers have yielded knowledge entirely transferable to other high latitude regions in America Europe and Asia **Information Visualization** Andreas Kerren, John Stasko, Jean-Daniel Fekete, Chris North, 2008-07-19 This book is the outcome of the Dagstuhl Seminar on Information Visualization Human Centered Issues in Visual Representation Interaction and Evaluation held at Dagstuhl Castle Germany from May 28 to June 1 2007 Information Visualization InfoVis is a relatively new research area which focuses on the use of visualization techniques to help people understand and analyze data This book documents and extends the findings and discussions of the various sessions in detail The seven contributions cover the most important topics There are general reflections on the value of information visualization evaluating information visualizations theoretical foundations of information visualization teaching information visualization And specific aspects on creation and collaboration engaging new audiences for information visualization process and pitfalls in writing information visualization research papers and visual analytics definition process and challenges **Silent Sparks** Sara Lewis, 2016-04-26 An informative entertaining and beautifully illustrated look at the beloved firefly For centuries the beauty of fireflies has evoked wonder and delight Yet for most of us fireflies remain shrouded in mystery How do fireflies make their light What are they saying with their flashing And what do fireflies look for in a mate In Silent Sparks noted biologist and firefly expert Sara Lewis dives into the fascinating world of fireflies and reveals the most up to date discoveries about these beloved insects From the meadows of New England and the hills of the Great Smoky Mountains to the rivers of Japan and mangrove forests of Malaysia this beautifully illustrated and accessible book uncovers the remarkable dramatic stories of birth courtship romance sex deceit poison and death among fireflies The nearly two thousand species of fireflies worldwide have evolved in different ways and while most mate through the aerial language of blinking lights not all do Lewis introduces us to fireflies that don't light up at all relying on wind borne perfumes to find mates and we encounter glow worm fireflies whose plump wingless females never fly We go behind the scenes to meet inquisitive scientists who have dedicated their lives to understanding fireflies and we learn about various modern threats including light pollution and habitat destruction In the last section of the book Lewis provides a field guide for North American fireflies enabling us to identify them in our own backyards and neighborhoods This concise handy guide includes distinguishing features habits and range maps for the most commonly encountered fireflies as well as a gear list A

passionate exploration of one of the world's most charismatic and admired insects Silent Sparks will inspire us to reconnect with the natural world **Thixoforming** Gerhard Hirt,Reiner Kopp,2009-02-11 Offering a sound technological overview while also including the fundamental aspects this book provides the knowledge needed to master the highly challenging process characteristics for successful application in industrial production It summarizes the first hand experience gained from twelve years of collaborative research covering materials science rheology casting and forming control and surface technology as well as the modeling of flow behavior tool engineering and systems engineering and thus treats all the vital aspects of this field For materials scientists physicists engineers and those working in the metal processing industry

From Quantum To Cosmos: Fundamental Physics Research In Space Slava G Turyshev,2009-05-21 Space based laboratory research in fundamental physics is an emerging research discipline that offers great discovery potential and at the same time could drive the development of technological advances which are likely to be important to scientists and technologists in many other different research fields The articles in this review volume have been contributed by participants of the international workshop From Quantum to Cosmos Fundamental Physics Research in Space held at the Airlie Center in Warrenton Virginia USA on May 21-24 2006 This unique volume discusses the advances in our understanding of fundamental physics that are anticipated in the near future and evaluates the discovery potential of a number of recently proposed space based gravitational experiments Specific research areas covered include various tests of general relativity and alternative theories search of physics beyond the Standard Model investigations of possible violations of the equivalence principle search for new hypothetical long and short range forces variations of fundamental constants tests of Lorentz invariance and attempts at unification of the fundamental interactions The book also encompasses experiments aimed at the discovery of novel phenomena including dark matter candidates and studies of dark energy *Library Journal* Melvil Dewey,Richard Rogers Bowker,L. Pylodet,Charles Ammi Cutter,Bertine Emma Weston,Karl Brown,Helen E. Wessells,2005 Includes beginning Sept 15 1954 and on the 15th of each month Sept-May a special section School library journal ISSN 0000-0035 called Junior libraries 1954-May 1961 Also issued separately Mathematical Modelling of Gas-Phase Complex Reaction Systems: Pyrolysis and Combustion ,2019-06-06 Mathematical Modelling of Gas Phase Complex Reaction Systems Pyrolysis and Combustion Volume 45 gives an overview of the different steps involved in the development and application of detailed kinetic mechanisms mainly relating to pyrolysis and combustion processes The book is divided into two parts that cover the chemistry and kinetic models and then the numerical and statistical methods It offers a comprehensive coverage of the theory and tools needed along with the steps necessary for practical and industrial applications Details thermochemical properties and ab initio calculations of elementary reaction rates Details kinetic mechanisms of pyrolysis and combustion processes Explains experimental data for improving reaction models and for kinetic mechanisms assessment Describes surrogate fuels and molecular reconstruction of hydrocarbon liquid mixtures Describes pollutant formation in combustion

systems Solves and validates the kinetic mechanisms using numerical and statistical methods Outlines optimal design of industrial burners and optimization and dynamic control of pyrolysis furnaces Outlines large eddy simulation of turbulent reacting flows

Why Red Doesn't Sound Like a Bell J. Kevin O'Regan, 2011-08-01 The book starts by analyzing the problem of how we can see so well despite what to an engineer might seem like horrendous defects of our eyes An explanation is provided by a new way of thinking about seeing the sensorimotor approach In the second part of the book the sensorimotor approach is extended to all sensory experience It is used to elucidate an outstanding mystery of consciousness namely why unlike today's robots humans actually can feel things The approach makes predictions and opens research avenues among them the phenomena of change blindness sensory substitution and looked but failed to see as well as results on color naming and color perception and the localisation of touch on the body

Systems Engineering and management for Sustainable Development - Volume I Andrew P. Sage, 2009-09-30 Systems Engineering and Management for Sustainable Development is a component of Encyclopedia of Technology Information and Systems Management Resources in the global Encyclopedia of Life Support Systems EOLSS which is an integrated compendium of twenty one Encyclopedias This theme discusses basic principles of systems engineering and management for sustainable development including cost effectiveness assessment decision assessment tradeoffs conflict resolution and negotiation research and development policy industrial ecology and risk management strategies for sustainability The emphasis throughout will be upon the development of appropriate life cycles for processes that assist in the attainment of sustainable development and in the use of appropriate policies and systems management approaches to ensure successful application of these processes The general objectives of these chapters is to illustrate the way in which one specific issue such as the need to bring about sustainable development necessarily grows in scope such that it becomes only feasible to consider the engineering and architecting of appropriate systems when the specific issue is imbedded into a wealth of other issues The discussions provide an illustration of the many attributes and needs associated with the important task of utilizing information and knowledge enabled through systems engineering and management to engineer systems involving humans organizations and technology in the support of sustainability These two volumes are aimed at the following five major target audiences University and College students Educators Professional practitioners Research personnel and Policy analysts managers and decision makers and NGOs

Current Controversies in the Biological Sciences Karen F. Greif, Jon F. Merz, 2007-02-23 In recent years advances in biological science and technology have outpaced policymakers attempts to deal with them Current Controversies in the Biological Sciences examines the ways in which the federal government uses scientific information in reaching policy decisions providing case studies of the interactions between science and government on different biomedical biological and environmental issues These case studies document a broad range of complex issues in science policy from the Human Genome Project to tobacco regulation and provide an accessible overview of both the science

behind the issues and the policy making process The cases illustrate the different ways in which science and politics intersect in policy decisions as well as the different forms policy itself may take including not only regulatory action but the lack of regulation Among the topics examined are public and private research funding as seen in gene patenting reluctance to regulate even when a product has been proven unhealthy as in the case of tobacco a comparison of U S and international policy responses to genetically modified organisms and the competing interests at play in air pollution policy Each chapter includes shorter side essays on related topics for example essays on issues raised by the SARS epidemic accompany the detailed case study of the public health response to the anthrax laced mail received in the weeks after 9 11 This clear and readable introduction to controversial issues in the biological sciences will be a valuable resource for students of science policy and bioethics and for professionals in industry government and nongovernmental organizations who need background on emerging issues in the biological sciences

Discontinuity in Second Language Acquisition Stefano Rastelli,2014
With a focus on the morphosyntactic features of second language this book discusses the idea that language acquisition is a discontinuous and quantized process due to the existence of two different albeit interconnected ways of learning Statistical Learning and Grammatical Learning It describes how the switch between ways of learning could take place and its developmental implications for adult SLA
