Natural History in America Wayne Hanley, 1976 **Rachel Carson** Linda Lear, 2009-04-01 The authoritative biography of the marine biologist and nature writer whose book *Silent Spring* inspired the global environmentalist movement In a career that spanned from civil service to unlikely literary celebrity Rachel Carson became one of the world's seminal leaders in conservation The 1962 publication of her book *Silent Spring* was a watershed event that led to the banning of DDT and launched the modern environmental movement Growing up in poverty on a tiny Allegheny River farm Carson attended the Pennsylvania College for Women on a scholarship There she studied science and writing before taking a job with the newly emerging Fish and Wildlife Service In this definitive biography Linda Lear traces the evolution of Carson's private professional and public lives from the origins of her dedication to natural science to her invaluable service as a brilliant if reluctant reformer Drawing on unprecedented access to sources and interviews Lear masterfully explores the roots of Carson's powerful connection to the natural world crafting a fine portrait of the environmentalist as a human being Smithsonian Impressively researched and eminently readable Compelling not just for Carson devotees but for anyone concerned about the environment People A combination of meticulous scholarship and thoughtful often poignant writing Science A sweeping analytic first class biography of Rachel Carson Kirkus Reviews The Bloomsbury Encyclopedia of the American Enlightenment Mark G. Spencer, 2015-02-26 The first reference work on one of the key subjects in American history filling an important gap in the literature with over 500 original essays *Encyclopedia of the American Enlightenment* Mark G. Spencer, 2015-01-01 The first reference work on one of the key subjects in American history filling an important gap in the literature with over 500 original essays *The Poetics of Natural History* Christoph Irmscher, 2019-09-08 Winner of the 2000 American Studies Network Prize and the Literature and Language Award from the Association of American Publishers Inc Early American naturalists assembled dazzling collections of native flora and fauna from John Bartram's botanical garden in Philadelphia and the artful display of animals in Charles Willson Peale's museum to P T Barnum's American Museum infamously characterized by Henry James as halls of humbug Yet physical collections were only one of the myriad ways that these naturalists captured catalogued and commemorated America's rich biodiversity They also turned to writing and art from John Edward Holbrook's forays into the fascinating world of herpetology to John James Audubon's masterful portraits of American birds In this groundbreaking now classic book Christoph Irmscher argues that early American natural historians developed a distinctly poetic sensibility that allowed them to imagine themselves as part of and not apart from their environment He also demonstrates what happens to such inclusiveness in the hands of Harvard scientist turned Amazonian explorer Louis Agassiz whose racist pseudoscience appalled his student William James This expanded full color edition of *The Poetics of Natural History* features a preface and art from award winning artist Rosamond Purcell and invites the reader to be fully immersed in an era when the boundaries between literature art and science became fluid The History of
