THE NATURAL HISTORY OF REVOLUTION

By LYFORD P. EDWARDS

MR. EDWARDS has traced with the trained hand of the scientist the regular sequence of events typical of revolutions and has formulated a body of general truths concerning them. The most significant revolutions of the past three hundred years: the English Puritan revolution, the French Revolution, the American Revolution, and the great Russian Revolution constitute the clinical material. The author follows the natural sequence of revolution through the preliminary symptoms of unrest, the advanced symptoms, the outbreak of revolution, the rise of the radicals, the reign of terror, and the return to normality.
