Gray Purcell and George Grant Elmslie built mainly in the Midwest and Northeast are the embodiment of the early 20th century marriage of fine craftsmanship and modern technology. Masterpieces of the Prairie Style, each home was designed with the groundbreaking idea that comfort and utility could harmonize with grace and style. Characterized by open plans and site specific designs, Purcell and Elmslie residences are tied to the land by local materials and low spreading forms. Their signature use of nature based ornament and brilliant color further distinguished them from their contemporaries. Frank Lloyd Wright's houses among them. In 24 residential profiles and gorgeous new photographs, Prairie Style expert Dixie Legler and photographer Christian Korab vividly bring to life the pair's enduring dedication to simple elegance and honest design. At Home on the Prairie is the deluxe treatment that this ingenious duo deserves. **Soviet Life**, 1974 *Collaborative Governance of Tropical Landscapes* Carol J. Pierce Colfer, Jean-Laurent Pfund, 2012-07-26. This book provides a novel approach to governance relating to biodiversity and human well being in complex tropical landscapes including forests and protected areas. It focuses attention at the interface between communities and the landscape level, building on interdisciplinary research conducted in five countries: Cameroon, Indonesia, Laos, Madagascar, and Tanzania. In each country, the research was set within the framework of a major national policy thrust. The book improves our understanding of and ability to manage complex landscapes, mosaics of differing land uses in a more adaptive and collaborative way that benefits both the environment and local communities. It includes both single country and cross site analyses and focuses on themes such as resettlement, land use planning, non timber forest product use and management, the disconnect between customary and formal legal systems, and the role of larger scale policies in local level realities. Chapters also analyze experience with monitoring and a local governance assessment tool. The work also provides guidance for those interested in management and governance at lower and intermediate levels: village, district scales likely to grow in importance in the global effort to mitigate and adapt to climate change.
