Natural Resources, Energy, and Environmental Law, 1997 *Natural Resources, Energy, and Environmental Law, 1989 the Year in Review* American Bar Association. Section of Natural Resources, Energy, and Environmental Law, University of Tulsa. National Energy Law & Policy Institute, 1990-01-01 Martindale Hubbell Law Directory Martindale-Hubbell, 2003

Legal, Engineering, Environmental And Social Perspectives Of Surface Mining Law And Reclamation By Landfilling: Getting Maximum Yield From Surface Mines Robert Lee Aston, 1999-07-05 Since mining is a basic and essential industry supplying raw materials for medicines building materials for homes schools hospitals commerce roads fuels for heating and energy metals for transportation cars aircraft and ships machinery communications infrastructure and other conveniences it cannot be done away with as some extremist environmentalists would like What would modern life be without minerals Miners are the harvesters of the earth s fruits To reap those fruits the earth must be plowed up After harvesting the plowed fields can be reclaimed and restored to pristine natural beauty with only temporary disturbance to the earth Reclamation of surface mines can profitably utilise the void space for burial of society s solid wastes while restoring the mined land surfaces to their original beauty or utility Industry and environmentalists should rejoice **A Global Warming Forum** Richard A.

Geyer, 1992-12-21 A Global Warming Forum Scientific Economic and Legal Overview provides an integrated thematic approach to major critical aspects of the problem presented by global warming Scientific issues economics natural resource management concerns and legal educational and policy considerations are discussed within the context of arriving at solutions to global warming problems Data and information is derived from diverse geographic locations especially in the case history chapters requiring the use of integrated interdisciplinary methods Graphs and tables are used extensively throughout the text to illustrate key concepts A Global Warming Forum Scientific Economic and Legal Overview is an excellent survey for researchers in all areas of geoscience and climate assessment including geochemistry oceanography climatology and resource management Uram and Curtis Nominations United States. Pragmatic Legal and Policy Implications of Environmental Lawmaking Movahedian, Hussein, Norouzi, Nima, 2023-05-01 The publication of environmental degradation statistics worldwide and the announcement of scientific assessments of the process of its destruction have attracted everyone s attention to the environment On the world stage international environmental laws and regulations must be formulated to protect the environment and humanity from further harm This book provides selective coverage of environmental and energy law within the European Union EU and the United Kingdom as well as internationally It is crucial to examine environmental and energy law from a wide range of perspectives and approaches to gain insight into how the law is designed to tackle particular environmental problems arising in both professional and theoretical settings Pragmatic Legal and Policy

Implications of Environmental Lawmaking bridges the knowledge gap between legal developments designed to achieve environmental and or energy objectives for example pollution control and conservation on the one hand and the practical scientific and technical considerations applicable to the same environmental problems on the other By adopting a multi disciplinary approach to environmental and energy law the book embraces all readerships and goes a step further to address the often difficult problem of improving communication between scientists and engineers and law and policymakers Covering topics such as environmental degradation energy law and international trade legislation the book will be useful to law students and professionals working in the fields of environmental and or energy law engineering and geo science students and professionals as well as others working in various other disciplines

Managing Natural Resources in British Columbia
Anthony Scott, 2011-11-01

How must natural resource sectors change to achieve sustainable development in British Columbia What reforms can be made to institutions in order to assist these changes What new policy instruments can be introduced What institutions and instruments are no longer useful These questions are the topic of hot debate in British Columbia and elsewhere *Managing Natural Resources in British Columbia* grapples with these questions and suggests some preliminary answers Interdisciplinary in its approach the book brings together leading scholars from the fields of law economics forestry and agricultural economics This book goes one step further than many earlier studies of sustainable development which have compared in principle the merits of market based versus regulation based instruments and examines these policy instruments their institutional contexts and the way in which they are implemented in the various resource sectors in British Columbia Looking in turn at forestry fisheries air quality and the regulation of energy the authors consider what policy instruments are most appropriate for fostering sustainable development and which institutions will best implement these policies and sustain them in the years to come *Managing Natural Resources in British Columbia* offers an innovative and far reaching contribution to the debate over sustainability at a time when many individuals are questioning the future of the environment in British Columbia
