Nature Of The Self A Functional Interpretation

Risieri Frondizi

Nature Of The Self A Functional Interpretation:

The Nature of the Self Risieri Frondizi, 1953 *The Nature of Man and God* Simon S. Godfrey, 2003 The search for understanding the meaning of the self and the nature of the Supreme Being has been the nub problem in history Although these concepts have been expounded in all ages by innumerable philosophers theologians and other writers the fact that they still remain nebulous indicates that more work is warranted in these perennial areas *The Nature of Man and God* deals with these two fundamental issues in a clear concise and down to earth manner As a psychologist the author has spent some thirty years investigating the issues in question The study of the self led him willy nilly to the reality of something that William James called a More or something that is popularly known as God The author found close affinity between the reality of the self and the reality of the Deity Owing to this affinity the author proposes that a more palpable way of knowing the Deity is to know one's own true self On the subject of the self the author distinguishes between two types a nominal self which is a mere echo of the early experiences of the individual and a transcendental self the latter can be realized only when human beings set themselves to unlearn what they have been taught on such matters rely on their inner resources and become their own gurus instead of following the instructions of self proclaimed authorities Regarding the Divine nature the author puts forth several challenging new theses In particular he enlarges on matters relating to ultimate concerns the human task freedom of will responsibility and theodicy explicating why there is evil and suffering in the world The book invites the reader to reach for a higher plain of humanness The topics covered are pivotal as the whole of humankind does indeed pivot around them It is the author's conviction that none of the current personal or international crises can be effectively resolved until humans first learn who they are and what genre of supratemporal intellect powers the scheme of things in the world The book should appeal to multiple audiences at a time when it seems nothing can disentangle the state of human affairs there is a crying need for this kind of book In particular it should prove of great interest to all those sincerely seeking to know themselves and their God the book also provides a workable tool for those seriously involved in improving the human lot or those weary of ongoing superficialities and trivialities of modern life

Pragmatism in the Americas Gregory Fernando Pappas, 2011 In the last ten years investigators worldwide have focused on the connections between the philosophy of classical figures in American pragmatism e.g. William James Charles Peirce and John Dewey and the Hispanic world *Pragmatism in the Americas* examines the intersection between these two traditions advancing new and unexplored realms of Western philosophy and uncovering new relationships The book will prove an invaluable source for philosophers and philosophy students as well as for scholars from other disciplines e.g. history political science sociology diversity studies and gender and race studies to begin understanding the dynamic relationship in thinking between the two Americas In addition to documenting the results of a new and thriving area of research it can also function as a primer to direct and provoke further inquiry Its essays from North American Spanish and Latin American scholars fill a void in the humanities and introduce a number of Hispanic

pragmatists who have not been included in standard pragmatist texts

The Performative Nature and Function of

Isaiah 40-55 Jim W. Adams, 2006-10-01 This dissertation presents the basic philosophical concepts of speech act theory in order to accurately implement them alongside other interpretive tools

Harold Bloom's Shakespeare C. Desmet, Robert

Sawyer, 2016-09-23 Harold Bloom's Shakespeare examines the sources and impact of Bloom's Shakespearean criticism Through focused and sustained study of this writer and his best selling book this collection of essays addresses a wide range of issues pertinent to both general readers and university classes the cultural role of Shakespeare and of a new secular humanism addressed to general readers and audiences the author as literary origin the persistence of character as a category of literary appreciation and the influence of Shakespeare within the Anglo American educational system Together the essays reflect on the ethics of literary theory and criticism

Derrida on the Mend Robert Magliola, 1984 Magliola's

exposition of Derrida has been acclaimed as the best in English Indeed it is the only account I know which brings an alert and independent questioning mind to bear on Derrida's arguments a mind which at times seems to play Kierkegaard into Derrida's Hegel Japanese Journal of Religious Studies Philosophy

A Companion to Latin American Philosophy Susana

Nuccetelli, Ofelia Schutte, Otávio Bueno, 2013-03-05 This comprehensive collection of original essays written by an international group of scholars addresses the central themes in Latin American philosophy Represents the most comprehensive survey of historical and contemporary Latin American philosophy available today Comprises a specially commissioned collection of essays many of them written by Latin American authors Examines the history of Latin American philosophy and its current issues traces the development of the discipline and offers biographical sketches of key Latin American thinkers Showcases the diversity of approaches issues and styles that characterize the field

Self, Ego, and

Identity Daniel K. Lapsley, F. Clark Power, 2012-12-06 In the midst of the cognitive revolution there has been a veritable explosion of interest in topics that have been long banished from academic consideration under the intellectual hegemony of behaviorism Most notably notions of self ego and identity are reasserting themselves as fundamental problems in a variety of research traditions within psychology and the social sciences Theoretical models review articles edited volumes and empirical work devoted to these constructs are proliferating at a dizzying rate This clearly attests to the renascent interest in these topics the vitality of these research paradigms and the promise that these constructs hold for explaining fundamental aspects of human development and behavior Although the renewed academic interest in self ego and identity is obviously an exciting and healthy development there is always the tendency for research to take on a parochial character When boundaries are erected among different theoretical perspectives when empirical findings are viewed in isolation when theories are too sharply delimited and segregated from other domains of behavior then what may seem like progressive healthy and content increasing tendencies in a research paradigm may turn out to be on closer inspection merely an inchoate thrashing about Fortunately there is an internal dynamic to scientific investigation that tends to combat this degenerating

tendency There is something about the rhythm of science that bids us to transcend parochial theoretical interests and seek the most general theory **The Nature of Life** Mark A. Bedau, Carol E. Cleland, 2010-09-30 Bringing together the latest scientific advances and some of the most enduring subtle philosophical puzzles and problems this book collects original historical and contemporary sources to explore the wide range of issues surrounding the nature of life Selections ranging from Aristotle and Descartes to Sagan and Dawkins are organised around four broad themes covering classical discussions of life the origins and extent of natural life contemporary artificial life creations and the definition and meaning of life in its most general form Each section is preceded by an extensive introduction connecting the various ideas discussed in individual chapters and providing helpful background material for understanding them With its interdisciplinary perspective this fascinating collection is essential reading for scientists and philosophers interested in astrobiology synthetic biology and the philosophy of life **The Nature of the Self, a Functional Interpretation, by Risieri Frondizi** Risieri Frondizi, 1953

The Top Books of the Year Nature Of The Self A Functional Interpretation The year 2023 has witnessed a noteworthy surge in literary brilliance, with numerous compelling novels captivating the hearts of readers worldwide. Lets delve into the realm of bestselling books, exploring the captivating narratives that have charmed audiences this year. The Must-Read : Colleen Hoover's "It Ends with Us" This heartfelt tale of love, loss, and resilience has gripped readers with its raw and emotional exploration of domestic abuse. Hoover skillfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can prevail. Uncover the Best : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This intriguing historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids absorbing storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Discover the Magic : Delia Owens "Where the Crawdads Sing" This mesmerizing coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens weaves a tale of resilience, survival, and the transformative power of nature, entrancing readers with its evocative prose and mesmerizing setting. These bestselling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of engaging stories waiting to be discovered. The novel begins with Richard Pape, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and gripping novel that will keep you guessing until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
