Nature Embodied Gesture In Ancient Rome:

Nature Embodied Anthony Corbeill, 2018-06-05 Bodily gesture A Roman worshipper spins in a circle in front of a temple Faced with death a Roman woman tears her hair and beats her breasts Enthusiastic spectators at a gladiatorial event gesticulate with thumbs Examining the tantalizing glimpses of ancient bodies offered by surviving Roman sculptures paintings and literary texts Anthony Corbeill analyzes the role of gesture in medical and religious ritual in the gladiatorial arena in mourning practice in aristocratic competition of the late Republic and in the court of the emperor Tiberius Adopting approaches from anthropology gender studies and ecological theory *Nature Embodied* offers both a series of case studies and an overarching narrative of the role and meanings of gesture in ancient Rome Arguing that bodily movement grew out of the relationship between Romans and their natural social and spiritual environment the book explores the ways in which an originally harmonious relationship between nature and the body was manipulated as Rome became socially and politically complex By the time that Tacitus was writing about the reign of Tiberius the emergence of a new political order had prompted an increasingly inscrutable equation between truth and the body and something vital in the once harmonizing relationship between bodies and the world beyond them had been lost *Nature Embodied* makes an important contribution to an expanding field of research by offering a new theoretical model for the study of gesture in classical times , *The Oxford Handbook of Quintilian* Marc van der Poel, 2021-12-03 M Fabius Quintilianus was a prominent orator declaimer and teacher of eloquence in the first century CE After his retirement he wrote the *Institutio oratoria* a unique treatise in antiquity because it is both a handbook of rhetoric and an educational treatise Quintilian's fame and influence are not only based on the *Institutio* but also on the two collections of *Declamations* which were later attributed to him *The Oxford Handbook of Quintilian* aims to present Quintilian's *Institutio* as a key treatise in the history of Greco Roman rhetoric and to trace its influence on the theory and practice of rhetoric and education up to the present day Topics include Quintilian's educational programme his concepts and classifications of rhetoric his discussion of the five canons of rhetoric his style his views on literary criticism declamation and the relationship between rhetoric and law and the importance of the visual and performing arts in his work His legacy is presented in successive chapters devoted to Quintilian in late antiquity the Middle Ages the Italian Renaissance Northern Europe during the Renaissance Europe from the eighteenth to the twentieth century and the United States of America Other chapters examine the biographical tradition the history of printed editions and modern assessments of Quintilian The contributors represent a wide range of expertise and scholarly traditions offering a unique multidisciplinary perspective *Rabbinic Body Language: Non-Verbal Communication in Palestinian Rabbinic Literature of Late Antiquity* Catherine Hezser, 2017-01-16 This study constitutes the first comprehensive examination of rabbinic body language represented in Palestinian rabbinic sources of late antiquity Catherine Hezser examines rabbis appearance and demeanor spatial movement gestures and facial expressions on the basis of literary and social anthropological methods and

theories She discusses the various forms of rabbinic non verbal communication in the context of Graeco Roman and ancient Christian literary sources and in connection with the material culture of Roman and early Byzantine Palestine Catherine Hezser convincingly shows that in rabbinic literature body language serves as an important means of rabbinic self fashioning Rabbinic texts create the image of a particularly Jewish type of intellectual who functioned and competed for adherents within the highly visual and body conscious environment of late antiquity

Material Approaches to Roman Magic Adam Parker, Stuart McKie, 2018-04-30 This second volume in the new TRAC Themes in Roman Archaeology series seeks to push the research agendas of materiality and lived experience further into the study of Roman magic a field that has until recently lacked object focused analysis Building on the pioneering studies in Boschung and Bremmer's 2015 Materiality of Magic the editors of the present volume have collected contributions that showcase the value of richly detailed context specific explorations of the magical practices of the Roman world By concentrating primarily on the Imperial period and the western provinces the various contributions demonstrate very clearly the exceptional range of influences and possibilities open to individuals who sought to use magical rituals to affect their lives in these specific contexts something that would have been largely impossible in earlier periods of antiquity Contributions are presented from a range of museum professionals commercial archaeologists university academics and postgraduate students making a compelling case for strengthening lines of communication between these related areas of expertise
