Natures Perspectives Prospects For Ordinal Metaphysics:

Nature's Perspectives Armen Marsoobian, Kathleen A. Wallace, Robert S. Corrington, 1990-11-27 **Nature's Perspectives** Armen Marsoobian, Kathleen Wallace, Robert S. Corrington, 1991-01-01 A Philosophy of Sacred Nature Leon Niemoczynski, Nam T. Nguyen, 2014-11-12 A Philosophy of Sacred Nature introduces Robert Corrington's philosophical thought ecstatic naturalism which seeks to recognize nature's self-transforming potential Ecstatic naturalism is a philosophical theological perspective deeply seated in a semiotic cosmology and psychosemiosis and it radically and profoundly probes into the mystery of nature's perennial self-fissuring of nature-natured and nature-naturing Edited by Leon Niemoczynski and Nam T. Nguyen this collection aims to allow readers to see what can be done with ecstatic naturalism and what directions interpretations and creative uses that doing can take A thorough exploration of the prospects of ecstatic naturalism this book will appeal to scholars of Continental philosophy religious naturalism and American pragmatism A Semiotic Theory of Theology and Philosophy Robert S. Corrington, 2000-11-09 The concern of this work is with developing an alternative to standard categories in theology and philosophy especially in terms of how they deal with nature Avoiding the polemics of much contemporary reflection on nature it shows how we are connected to nature through the unconscious and its unique way of reading and processing signs Spinoza's key distinction between *natura naturans* and *natura naturata* serves as the governing framework for the treatise Suggestions are made for a post-Christian way of understanding religion Robert S. Corrington's work represents the first sustained attempt to bring together the fields of semiotics depth psychology pragmatism and a post-Monotheistic theology of nature Its focus is on how signification functions in human and non-human orders of infinite nature Our connection with the infinite is described in detail especially as it relates to the use of sign systems **The Human Eros** Thomas M. Alexander, 2013-07-01 In these philosophical essays a leading John Dewey scholar presents a new conceptual framework for exploring human experience as it relates to nature The Human Eros explores themes in classical American philosophy primarily the thought of John Dewey but also that of Ralph Waldo Emerson George Santayana and Native American traditions Using these works as a critical base Thomas M. Alexander suggests that human beings have an inherent need to experience meaning and value what he calls a Human Eros Our various cultures are symbolic environments or spiritual ecologies within which the Human Eros seeks to thrive This is how we inhabit the earth Encircling and sustaining our cultural existence is nature yet Western philosophy has not provided adequate conceptual models for thinking ecologically Alexander introduces the idea of eco-ontology to explore ways in which this might be done beginning with the primacy of Nature over Being but also including the recognition of possibility and potentiality as inherent aspects of existence He argues for the centrality of Dewey's thought to an effective ecological philosophy Both pragmatism and naturalism he shows need to be contextualized within an emergentist relational nonreductive view of nature and an aesthetic imaginative nonreductive view of intelligence **An Introduction to C. S. Peirce** Robert S.

Corrington,1993-04-14 Corrington achieves the most judicious presentation of Peirce s philosophy made so far an ideal introduction for the beginning student and balancer for Peirce sophisticates John Deely Loras College *Realism in Religion*

Robert Cummings Neville, *The Orders of Nature* Lawrence Cahoon,2013-01-01 A systematic theory of naturalism bridging metaphysics and the science of complexity and emergence *Self and Society* Central European Pragmatist Forum,2009 This book is the fourth volume of selected papers from the Central European Pragmatist Forum CEPF It deals with the general question of self and society and the papers are organized into sections on Self and History Self and Society Self and Politics Self and Neopragmatism and an Interview with Richard Rorty The authors are among the leading specialists in American philosophy from universities across the US and in Central and Eastern Europe **American Philosophy and the Intellectual Migration** Sander Verhaegh,2025-01-27 How did immigrant scholars such as Rudolf Carnap Max Horkheimer and Alfred Sch tz influence the development of American philosophy Why was the U S community more receptive to logical empiricism than to critical theory or phenomenology This volume brings together fifteen historians of philosophy to explore the impact of the intellectual migration In the 1930s the rise of fascism forced dozens of philosophers to flee to the United States Prominent logical empiricists acquired positions at prestigious U S universities Critical theorists moved their Frankfurt School to Columbia University And a group of phenomenologists taught at the New School for Social Research Though many refugee scholars acquired some American following logical empiricism had the biggest impact on academic philosophy The exiled empiricists helped the country turn into a bastion of analytic philosophy after the war Phenomenology and critical theory became prominent schools from the 1970s onwards and continue to be influential in American philosophy today This is the first book to investigate to the migration from an integrated perspective bringing together historians of American philosophy logical empiricism phenomenology and critical theory
