and the Australian national bibliography and its predecessors **Australian National Bibliography**, 1978 **Nihimásáni Deiztl'ó** Eulalie H. Bonar, National Museum of the American Indian (U.S.), 1996-10-17 With 80 color illustrations Woven by the Grandmothers showcases not only the collection's earliest and best documented pieces but also those that most vividly represent its variety and depth Essays by Native and non Native authors including D Y Begay and Joe Ben Wheat explore the spirituality of Navajo weaving and situate the collection within an ongoing artistic and cultural tradition *Reflections of the Weaver's World* Ann Lane Hedlund, 1992 **Catalog of the Robert Goldwater Library, the Metropolitan Museum of Art** Robert Goldwater Library, 1982 Dine Bibliography to the 1990s Howard M. Bahr, 1999-06 The Navajo are the largest tribe of Indians in the United States and due in part to a fascination with their relative isolation have been analyzed in numerous documentaries In this timely supplement to the Navajo Bibliography Howard M Bahr engages in a unique postmodern approach to his bibliography of the Navajo culture by combining health related artistic economic religious social scientific and other literature on the Navajo into one study The bibliography skillfully downplays disciplinary boundaries by unifying literature that has previously only offered separate classification and access The more than 6 300 entries are selectively annotated and cover Navajo literature from 1970 to 1990 as well as newly discovered literature including Franciscans literature that was not included in the original Navajo Bibliography This bibliography is not only the most comprehensive bibliography to date in its coverage of more than two decades of new material but the only source that supplements the professional literature with local and cultural works An exhaustive resource that effectively doubles the expanse of Navajo literature surveyed and indexed Din Bibliography to the 1990s is an invaluable tool that both highlights the literature already available and expands such data to include coverage of genres that have been previously underrepresented
