Navy A History The Story Of A Service In:

The Navy Fletcher Pratt, 1941 The American Way of War Russell F. Weigley, 1977 a strong and stimulating book It has no rival in either scope or quality For libraries history buffs and armchair warriors it is a must For political science students career diplomats and officers in the armed services its reading should be required History A particularly timely account Kansas City Times It reads easily but is not a popularized history nor does the book become a history of battles Weigley's analyses and interpretations are searching competent and useful Perspective **The Fight for the Yazoo, August**

1862-July 1864 Myron J. Smith, Jr., 2014-01-10 Following the loss of the CSS Arkansas in early August 1862 Union and Confederate eyes turned to the Yazoo River which formed the developing northern flank for the South's fortress at Vicksburg Mississippi For much of the next year Federal efforts to capture the citadel focused on possession of that stream Huge battles and mighty expeditions were launched Chickasaw Bayou Yazoo Pass Steele's Bayou from that direction but the city guarded by stout defenses swamps and motivated defenders could not be turned Finally Union troops ran down the Mississippi and came up from the south and the river defenses and the bastion itself were taken from the east From July 1863 to August 1864 sporadic Confederate resistance necessitated continued Federal attention This book recounts the whole story The Timberclads in the Civil War Myron J. Smith, Jr., 2008-10-07 In the most detailed history ever of Union warships

on the western waters of the Civil War the author recounts the exploits of the timberclad ships Lexington Tyler and Conestoga Converted to warships from commercial steamboats at the beginning of the conflict the three formed the core of the North's Western Flotilla later the Mississippi Squadron The book focuses on the activities of these wooden warriors while providing context for the greater war including accounts of their famous commanders their roles in both large and small battles ship to ship combat and support for the armies of Gen U S Grant and Gen William T Sherman *The CSS Arkansas* Myron J. Smith, Jr., 2014-01-10 While the Monitor and Merrimack are the most famous of the Civil War ironclads the Confederacy had another ship in its flotilla that carried high hopes and a metal hull The makeshift CSS Arkansas completed by Lt Isaac Newton Brown and manned by a mixed crew of volunteers gave the South a surge of confidence when it launched in 1862 For 28 days of summer the ship engaged in five battles with Union warships falling victim in the end only to her own primitive engines The saga of the CSS Arkansas represents the last significant Rebel naval activity in the war's Western theater Tinclads in the Civil War Myron J. Smith, Jr., 2010-01-13 Once the Union Army gained control of the upper rivers

of the Mississippi Valley during the first half of 1862 slow and heavy ironclads proved ineffective in patrolling the waters Hastily outfitted steamboats were covered with thin armor and pressed into duty These tinclads fought Confederate forces attacking from the riverbanks provided convoy for merchant steamers enforced revenue measures and offered tow dispatch and other fleet support services This history documents the service records and duties of these little known vessels of the Union fleet
