Sissel,2001-06-30 Representative of a wide range of adult education and lifelong learning frameworks and experiences this book gives voice to emerging perspectives and offers thought provoking critiques of established practices and accepted theories Those in the adult education academy as well as other voices often excluded from the discourse in adult education

offer critiques of the social political economic and historical forms of hegemony in the discipline They analyze the ways in which these hegemonic norms and practices have affected adult learning environments and the participation rates of varying groups and shed light on how adult education as a field of practice can marginalize individuals based on their ethnicity race gender class language age or sexual orientation These critiques provide a powerful statement about silence invisibility and the marginalization of the other and suggest that adult educators may complicitly if not implicitly marginalize adult learners This book will provide professors and students adult literacy teachers corporate trainers community based organizers and others with alternative ways to think about adult education practice adult learners and the multiple intersecting realities that influence the teaching learning transaction In so doing this book provides practitioners and academicians with a forum to dialog about emerging theories and practices and through the discourse they can begin to merge theories and practices through language that is accessible and inclusive

One Day I'll Work for Myself Benjamin C. Waterhouse, 2024-01-16 From side hustlers to start ups freelancers to small business owners Americans have a special affinity for people who make it on their own But the dream has a dark side One day I ll work for myself Perhaps you ve heard some version of that phrase from friends colleagues family members perhaps you ve said it yourself If so you re not alone The spirit of entrepreneurship runs deep in American culture and history in the films we watch and the books we read in our political rhetoric and in the music piping through our speakers What makes the dream of self employment so alluring so pervasive in today s world Benjamin C Waterhouse offers a provocative argument the modern cult of the hustle is a direct consequence of economic failures bad jobs stagnant wages and inequality since the 1970s With original research Waterhouse

traces a new narrative history of business in America populated with vivid characters from the activists academics and work from home gurus who hailed business ownership as our economic salvation to the upstarts who took the plunge We meet among others a consultant who quits his job and launches a wildly popular beer company a department store saleswoman who founds a plus size bra business on the Internet and an Indian immigrant in Texas who flees the corporate world to open a motel Some flourish some squeak by Some fail As Waterhouse shows the go it alone movement that began in the 1970s laid the political and cultural groundwork for today s gig economy and its ethos everyone should be their own boss While some people find success in that world countless others are left bouncing from gig to gig exploited underpaid or conned by get rich quick scams And our politics doesn t know how to respond Accessible fast paced and eye opening One Day I ll Work for Myself offers a fresh insightful cultural history of the U S economy from the perspective of the people within it asking urgent questions about why we re clinging to old strategies for progress and at what cost Entrepreneurship, Neurodiversity & Gender Dinah Bennett,Yolanda K Gibb,2022-07-20 Entrepreneurship Neurodiversity Gender shines a spotlight on issues of intersectionality and opens the debate on how we can develop and support the options of entrepreneurship or self employment that are offered to young people early on in their career **Strategic Fund Development** Simone P. Phillip Thompson,Mark R. Warren,2002-01-10 Neighborhood support groups have always played a key role in helping the poor survive but combating poverty requires more than simply meeting the needs of day to day subsistence Social Capital and Poor Communities shows

the significant achievements that can be made through collective strategies which empower the poor to become active partners in revitalizing their neighborhoods Trust and cooperation among residents and local organizations such as churches small businesses and unions form the basis of social capital which provides access to resources that would otherwise be out of reach to poor families Social Capital and Poor Communities examines civic initiatives that have built affordable housing fostered small businesses promoted neighborhood safety and increased political participation At the core of each initiative lie local institutions church congregations parent teacher groups tenant associations and community improvement alliances The contributors explore how such groups build networks of leaders and followers and how the social power they cultivate can be successfully transferred from smaller goals to broader political advocacy For example community based groups often become platforms for leaders hoping to run for local office Church based groups and interfaith organizations can lobby for affordable housing job training programs and school improvement Social Capital and Poor Communities convincingly demonstrates why building social capital is so important in enabling the poor to seek greater access to financial resources and public services As the contributors make clear this task is neither automatic nor easy The book's frank discussions of both successes and failures illustrate the pitfalls conflicts of interest resistance from power elites and racial exclusion that can threaten even the most promising initiatives The impressive evidence in this volume offers valuable insights into how goal formation leadership and cooperation can be effectively cultivated resulting in a remarkable force for change and a rich public life even for those communities mired in seemingly hopeless poverty A Volume in the Ford Foundation Series on Asset Building *The Financing of Small Business* Lauren Helena Read, 2002-01-08 A detailed empirical study of how small business owners finance their enterprises this volume compares the experiences of women with those of men The author redresses an over reliance on subjective and anecdotal evidence of discrimination in this area with a controlled study of forty matched pairs of male female owners and their strategies for raising finances The research reveals the importance of adopting a theoretical framework in which the role of gender in the financing of small businesses is considered and the practical implications for female entrepreneurs banks and policy makers *Managing Our Margins* Kimberly A. Reed, 2013-10-31 Many women seek to achieve greater control over their working lives by making a transition to entrepreneurship and as a result must negotiate gender norms and gender related expectations in both business and personal relationships Based on interviews with women in the New Jersey suburbs this book explores the range of uncertainties and practical dilemmas independent businesswomen face today **Kimono in the Boardroom** Jean R. Renshaw, 1999-09-23 Japanese women who comprise more than 40% of their country's workforce are essential to the Japanese economy Yet they are not typically thought of as managers at home or abroad Jean Renshaw challenges that perception in this pathbreaking book showing readers where and how an invisible evolution is occurring in Japanese business Traditional norms of lifetime employment the seniority system and the bureaucratic tightly knit nature of Japanese industry all restrict women's entry into management Despite these enormous

barriers the number of Japanese women managers has almost doubled in the last ten years In an effort to discover the secrets of their success Renshaw interviewed over 150 successful Japanese women managers She explored family backgrounds personal characteristics socialization professional experiences and corporate cultures This book presents her sometimes surprising discoveries Renshaw completes the picture by surveying the history of Japanese women in management and discussing the even newer phenomenon of Japanese women who own their own businesses An eye opening work for managers of international firms and scholars of business and women s studies *Kimono in the Boardroom* reveals the potential of the rising female managerial class to profoundly change the male dominated culture of modern Japan **Dive**

Right in Jane Wesman,1995 From the classroom to the boardroom working women across the country are staking out new career paths and starting their own businesses in droves In this guide a veteran entrepreneur offers practical insights street smart tactics and savvy strategies which show women how to enjoy and profit from the new career track for business success
