The Dematerialisation of Karl Marx Leonard Jackson, 2014-07-22 This volume constitutes both an attack on modern left wing literary theory the main product of the last Marxist renaissance in the past thirty years and a defence of the one element of Marxism which in the general collapse modern theorists have been happiest to lose its economic materialism It traces Marxist theory from its beginnings in Hegelian idealism to its end in Althusser's structuralism and concludes that while Marxist economics will not work and the type of revolution prophesied was fantasy the principle of historical materialism remains intact and defensible This will be a key text in literary and cultural studies as well as being of interest to students on philosophy and sociology courses

The Labour Party and Foreign Policy John Callaghan, 2007-04-12 This book provides a penetrating new study of the Labour Party's thinking on international relations which probes the past present and future of the party's approach to the international stage The foreign policy of the Labour Party is not only neglected in most histories of the party it is also often considered in isolation from the party's origins evolution and major domestic preoccupations Yet nothing has been more divisive and more controversial in Labour's history than the party's foreign and defence policies and their relationship to its domestic programme Much more has turned on this than the generation of tempestuous conference debates Labour's credentials as a credible prospect for Governmental office were thought to depend on a responsible approach to foreign and defence policy Its exclusion from office was often said to stem from a failure to meet this test as in the 1950s The composition of Labour Cabinets was powerfully influenced by foreign and defence considerations as was the centralization of power and decision making within Labour Governments The domestic achievements and failures of these periods in office were inextricably connected to international questions The Labour Party and Foreign Policy is recommended for undergraduate and postgraduate courses in British politics and European history

Education and Conversation David Bakhurst, Paul Fairfield, 2016-05-19 Since Michael Oakeshott spoke of education as initiation into the conversation of mankind more than fifty years ago the idea has inspired a diverse array of thinkers and continues to be invoked today by those seeking to resist the influence of managerialism and narrow instrumentalism in educational policy and practice Education and Conversation draws together papers written by scholars from both the analytic and continental philosophical traditions to offer a variety of perspectives on the implications of Oakeshott's educational ideas The metaphor of the conversation of mankind is explored together with the roots of Oakeshott's thinking in his early philosophical work the relevance of his ideas to the concept of Bildung and the significance of his political conservatism in evaluating the seemingly progressive potential of his educational ideas In addition concepts prominent in Oakeshott's thought are taken up and brought to bear on contemporary philosophical discussions about education learning and development including the nature of initiation the phenomenology of listening and

the value of the liberal arts tradition Education and Conversation shows how the idea of conversation illuminates both the character and the ends of education yielding insight into the scope and limits of the philosophy of education and the character of philosophical inquiry more generally
