Manufacturing Religion Russell T. McCutcheon, 1997-06-19 In this new book author Russell McCutcheon offers a powerful critique of traditional scholarship on religion focusing on multiple interrelated targets Most prominent among these are the History of Religions as a discipline Mircea Eliade one of the founders of the modern discipline recent scholarship on Eliade s life and politics contemporary textbooks on world religions and the oft repeated bromide that religion is a sui generis phenomenon McCutcheon skillfully analyzes the ideological basis for and service of the sui generis argument demonstrating that it has been used to constitute the field s object of study in a form that is ahistoric apolitical fetishized and sacrosanct As such he charges it has helped to create departments jobs and publication outlets for those who are comfortable with such a suspect construction while establishing a disciplinary ethos of astounding theoretical naivete and a body of scholarship to match Surveying the textbooks available for introductory courses in comparative religion the author finds that they uniformly adopt the sui generis line and all that comes with it As a result he argues they are not just uncritical which helps keep them popular among the audiences for which they are intended but badly disserve but actively inhibit the emergence of critical perspectives and capacities And on the geo political scale he contends the study of religion as an ahistorical category participates in a larger

system of political domination and economic and cultural imperialism In His Own Image and Likeness Randall Garr, 2003-06-01 This book is about nothing less than Genesis 1 or human creation Humanity the author convincingly argues is created within the Priestly tradition as a replacement of God's divine community human creation marks the decisive moment that P's God separates himself from other gods and institutes monotheism After discussing the references of God's self-inclusive yet plural first person speech and examining the ramifications of this speech pattern in other biblical texts Randall Garr discusses the divine human relationship as it is represented by carefully analysing the prepositions and nouns that characterize it After highlighting some themes and theological concepts elaborated in Gen 1 it clearly situates the creation of humanity within the programmatic agenda of the Priestly tradition **The Early Christian World** Philip F. Babylonian Ceremonial Script in Its Scholarly Context Carole Roche-Hawley,2024-03-15 Since the advent of Assyriology in the early nineteenth century it has been known that two distinct scripts were used in ancient Mesopotamian inscriptions and documents One usefully characterized as cursive was used for the ephemeral documents of daily life as well as on most library and archival texts The other was a deliberately archaizing script reserved for ceremonial use This ceremonial script of Babylonian origin contained both archaic and archaizing signs and was in productive use for over two millennia not only in Babylonia but occasionally also in Assyria and beyond Yet to date there has been no systematic study devoted specifically to this ceremonial script nor any published syllabary of the archaic and archaizing signs it employs This volume attempts to rectify this deficiency by providing a substantive introduction to Babylonian ceremonial script along with a history of its modern study and several case studies of how the script was actually used The introduction is supplemented by an edition of the paleographic lists of the second and first millennia BCE which contain pedagogical inventories of the archaic and archaizing cuneiform signs illustrating how the ceremonial script was taught learned and transmitted in scholarly contexts

Images of Others Nathaniel Levtow,2008-06-30 In this volume Nathaniel Levtow articulately interacts with Mesopotamian and Israelite iconoclastic traditions locating Israelite polemics against cult images among a spectrum of ancient West Asian literary genres and ritual practices that target the embodied deities of political opponents Levtow argues that Israelite parodies of Mesopotamian iconic cult were not unique expressions of aniconic monotheism but assertions of Israelite political potency during and shortly after the Babylonian Exile By interpreting Israelite icon parodies in this context Levtow rejects the idea of idolatry as a static native Israelite descriptive category and highlights the ability of Israelite writers to compose authoritative classifications of cult that profoundly influenced ancient and modern understandings of iconic worship practices He concludes that biblical representations of iconic cult reveal dynamic acts of Israelite social formation and exemplify the enduring power of the cult image in ancient West Asian societies **Volume 8, Tome III:**
