Language of Lament Jessica Szitta,2023-05-19 The Language of Lament is an experience of grief Written after the loss of a child through a second trimester miscarriage this book is an authentic expression of suffering well when your soul is unwell Offering the reader an inside look at the mental emotional and spiritual wrestling of grieving it gives voice to the varied experiences and questions of the heart and soul that have been devastated by loss Does suffering well mean smiling through your grief Does crying out in hopelessness mean you are not grieving with hope Do moments of joy invalidate your loss Can sitting in silence be comforting Is there a time limit on sharing your experience Does God really care And can his word really heal Whether you are experiencing grief firsthand or walking with someone who is may The Language of Lament be a comforting companion in your journey **Tuning the Rig** Fred Herron,2012-07-10 To tune the rig describes adjusting a

ship's rigging the rig of a well-tuned boat allows the sails to function well. This task must be performed to ensure the best performance by the ship. Tuning the Rig takes that metaphor as a guide for Catholic educators and administrators as well as for the larger church. It argues from a variety of perspectives rooted in the Catholic imagination that the rig constantly needs to be re-tuned to balance between visions of the church as teacher and learner. Why should this matter to Catholic educators? To Herron, our understanding of the church as learner is at the heart of our understanding of ourselves as disciples. One of the logical consequences of this era of baptismal consciousness is a rising awareness on the part of the laity that their task is not simply to pay, pray, and obey but to grow and journey in faith. Herron's focus ranges from issues closely pertaining to Catholic schools to the larger questions of the Catholic imagination. The underlying thread, however, is the challenge of maintaining the richness of the Catholic imagination of tuning the rig in changing times and the ordinary life of the church.

The Master Showmen of King Ranch Betty Bailey Colley, Jane Clements Monday, Beto Maldonado, 2009-06-01 Texas King Ranch has become legendary for a long list of innovations, the most enduring of which is the development of the first official cattle breed in the Americas, the Santa Gertrudis, renowned for its beef quality and ability to withstand dry and blisteringly hot climates. Among those who played a crucial role in the breed's success were Librado and Alberto Beto Maldonado, master showmen of the King Ranch.

Remember Death Matthew McCullough, 2025-06-10 The Best Way to Find Meaning in Life Is to Get Honest About Death. Life expectancy worldwide is twice what it was a hundred years ago. And because of modern medicine, many of us don't often see death up close. That makes it easy to live as if death is someone else's problem. Ignoring the certainty of death doesn't protect us from feeling its effects throughout the lives we're living now, but it does hold us back from experiencing the powerful, everyday relevance of Jesus's promises to us. So long as death remains remote and unreal, Jesus's promises will too. But honesty about death brings hope to life. That's the ironic claim at the heart of this book. Cultivating death awareness helps us bring the promises of Jesus from the hazy clouds of some other world into the everyday realities of our world where they belong.

Insightful and Accessible Draws from many sources, including research from science and psychology and examples from literature, pop culture, theology, and Scripture. Christ-centered encouragement for life and loss. Teaching what the Bible says about identity, futility, and grief. McCullough offers hope that is tied to the promises of God.

Sounding the Cape Denis Martin,2013 For several centuries Cape Town has accommodated a great variety of musical genres which have usually been associated with specific population groups living in and around the city Musical styles and genres produced in Cape Town have therefore been assigned an identity which is first and foremost social This volume tries to question the relationship established between musical styles and genres and social in this case pseudo racial identities In Sounding the Cape Denis Constant Martin recomposes and examines through the theoretical prism of creolisation the history of music in Cape Town deploying analytical tools borrowed from the most recent studies of identity configurations He demonstrates that musical creation in the Mother City and in South Africa has always been nurtured by contacts exchanges and innovations whatever the efforts made by racist powers to separate and divide people according to their origin Musicians interviewed at the dawn of the 21st century confirm that mixture and blending characterise all Cape Town s musics They also

emphasise the importance of a rhythmic pattern particular to Cape Town the ghoema beat whose origins are obviously mixed The study of music demonstrates that the history of Cape Town and of South Africa as a whole undeniably fostered creole societies Yet twenty years after the collapse of apartheid these societies are still divided along lines that combine economic factors and racial categorisations Martin concludes that were music given a greater importance in educational and cultural policies it could contribute to fighting these divisions and promote the notion of a nation that in spite of the violence of racism and apartheid has managed to invent a unique common culture
