Unlocking Africa's Business Potential Landry Signe, 2020-04-07 Africa welcomes business investment and offers some of the world's highest returns and impacts. Africa has tremendous economic potential and offers rewarding opportunities for global businesses looking for new markets and long-term investments with favorable returns. Africa has been one of the world's fastest growing regions over the past decade and by 2030 will be home to nearly 1.7 billion people and an estimated 6.7 trillion worth of consumer and business spending. Increased political stability in recent years and improving regional integration are making market access easier and business expansion will generate jobs for women and youth who represent the vast majority of the population. Current economic growth and poverty alleviation efforts mean that more than 43 percent of the continent's people will reach middle or upper class status by 2030. **Unlocking Africa's Business Potential** examines business opportunities in the eight sectors with the highest potential returns on private investment: the same sectors that will foster economic growth and diversification, job creation and improved general welfare. These sectors include consumer markets, agriculture and agriprocessing, information and communication technology, manufacturing, oil and gas, tourism, banking and infrastructure and construction. The book's analysis of these sectors is based on case studies that identify specific opportunities for investment and growth along with long-term market projections to inform decision making. The book identifies potential risks to business and offers mitigation strategies. It also provides policymakers with solutions to attract new business investments including how to remove barriers to business and accelerate development of the private sector.

Catching a Storyfish Janice N. Harrington, 2016-11-04 This lyrical middle grade novel in verse celebrates the power of story and of finding one's individual voice. Keet knows the only good thing about moving away from her Alabama home is that she'll live near her beloved grandfather. When Keet starts school, it's even worse than she expected as the kids tease her about her southern accent. Now Keet, who can talk the whiskers off a catfish, doesn't want to open her mouth. While fishing with her grandfather, she learns the art of listening and gradually she makes her first new friend. But just as she's beginning to settle in, her grandfather has a stroke and even though he's still nearby, he suddenly feels ever so far away. Keet is determined to reel him back to her by telling him stories. In the process, she finds her voice and her grandfather again.
